

# Multi-Opener

The Multi Opener® belongs to the assembly group of special tools and is the ideal tool for gently opening sensitive equipment. The product family of special tools includes various types, which have proved to be easy to use and to produce accurate results.

The Multi-Opener can be used for the gentle opening of sensitive equipment and for working on clipped housings. The Opener is produced entirely in Germany and is made of glass-fibre reinforced polyamide as well as a dissipative ESD material, which protects against electrostatic discharges.

The tool opens housings without scratching sensitive surfaces. Its range of application also includes dismantling components of electrical devices, removing flat connectors or gently opening clipped components. In addition, the Multi-Opener opens baseboards quickly and without leaving marks or scratches and its embedded stainless steel blade removes adhesive residues easily.

### Technical Data

Range of application	gentle opening of sensitive components in the electronics sector
Inner blade	Tensile strength blade: 1700 N/mm <sup>2</sup> , blade made of stainless steel
Material	glass-fibre reinforced polyamide
Weight	22 g

**Note**  
Working with WEICON Stripping tools is only permitted with potential free wires and conductions.
