PERFORMANCE

At MSpa we strive to make the best experiences with the most advanced technology accessible to more homes. This is the driving force behind our designs and why we have ensured there is an MSpa to suit each and every person's unique needs.

Discover our latest innovations and finishes to learn why MSpa is the industry leader in providing at home comfort.

HYDROMASSAGE JETS PLUS

Going beyond just comfort, hydromassage provides amazing health benefits for your mental and physical health. Enjoy an immersive at home experience that has been shown to relieve muscle soreness and tension, soothe minor aches and pains, and reduce stress and anxiety.

- A powerful 1100W jet pump offers our strongest water jet system to create the most relaxing massage experiences.
- The jet angle and water pressure can both be adjusted to your personal preference.
- 4 sets of 8 nozzles for multiple people to enjoy the massage.

Hydromassage Jet

Our original Hydromassage Jets are perfect for beginning your hydrotherapy journey. Offering basic hydromassage, our jets aid in reducing muscle aches and pains while relaxing the body and mind. We've removed complex setups by building our jet pumps directly into the spa control. Set up your spa in one go and pack it up for storage and portability with ease.

Note: only for Carlton.

All Around Bubble

For a truly immersive experience, our Air Jets Massage System creates thousands of bubbles from the bottom of the spa to surround you from all angles. Unlike our Hydromassage jets which are limited to 3-4 people, our Air Jets Massage System can be enjoyed by everyone in the tub at once! Our spas feature variable-speed bubble systems so you can adjust the bubble level based on your personal preference.

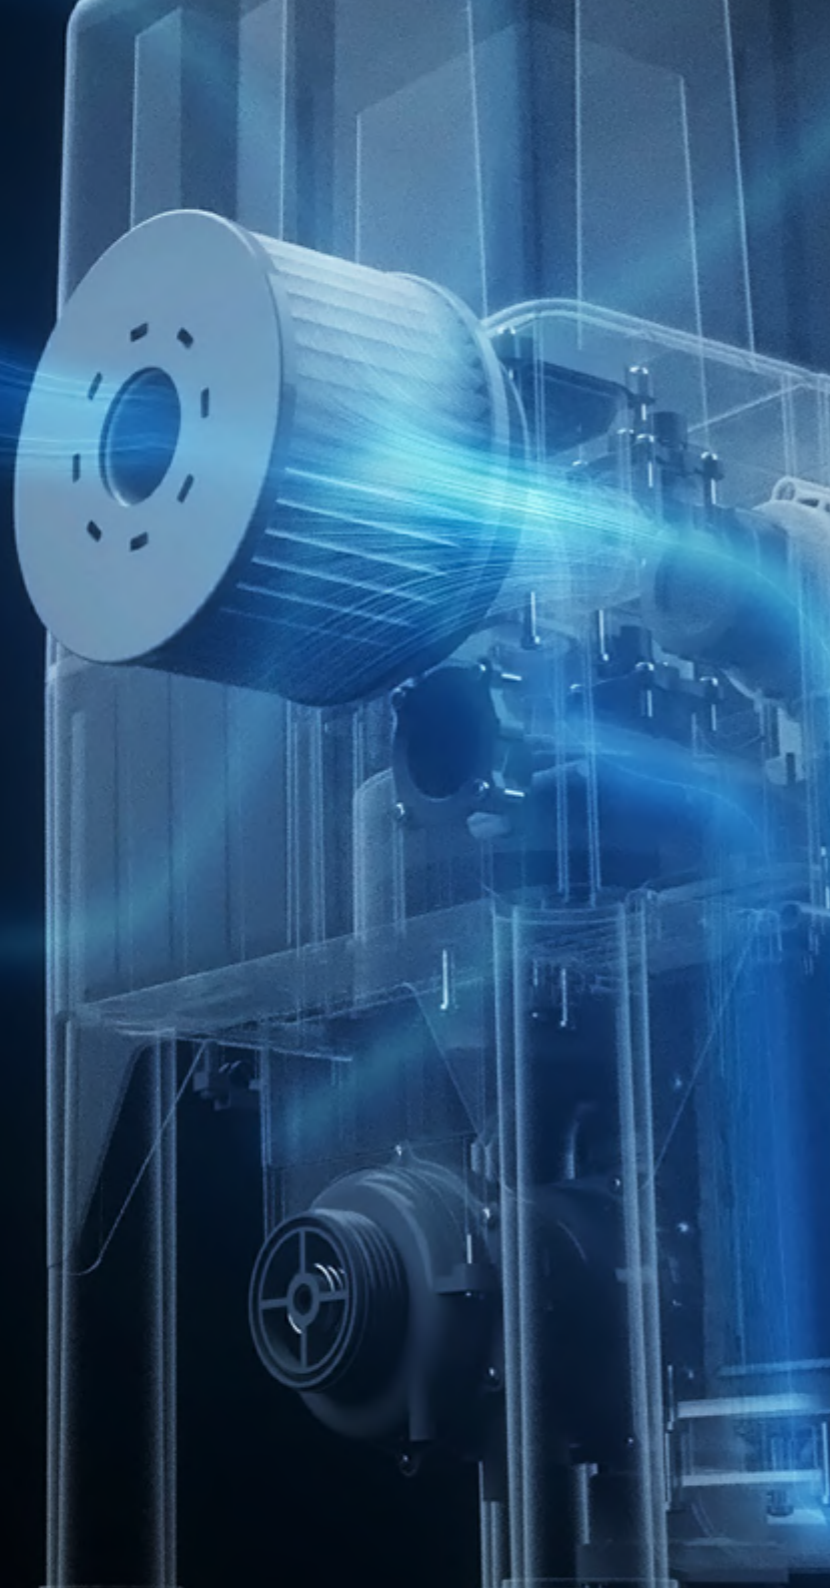

Note: the COMFORT / PREMIUM Series spas only have one bubble level.

Bubble Backup

Our Bubble Backup system directly targets two of the most common problem areas causing discomfort. Enjoy a bubble massage for your shoulders and back by positioning yourself in front of the convenient panels on either side of the control box. The bubbles make direct contact with the skin rather than dispersing into the water for a more powerful massage experience.

Note: only for Meteor.

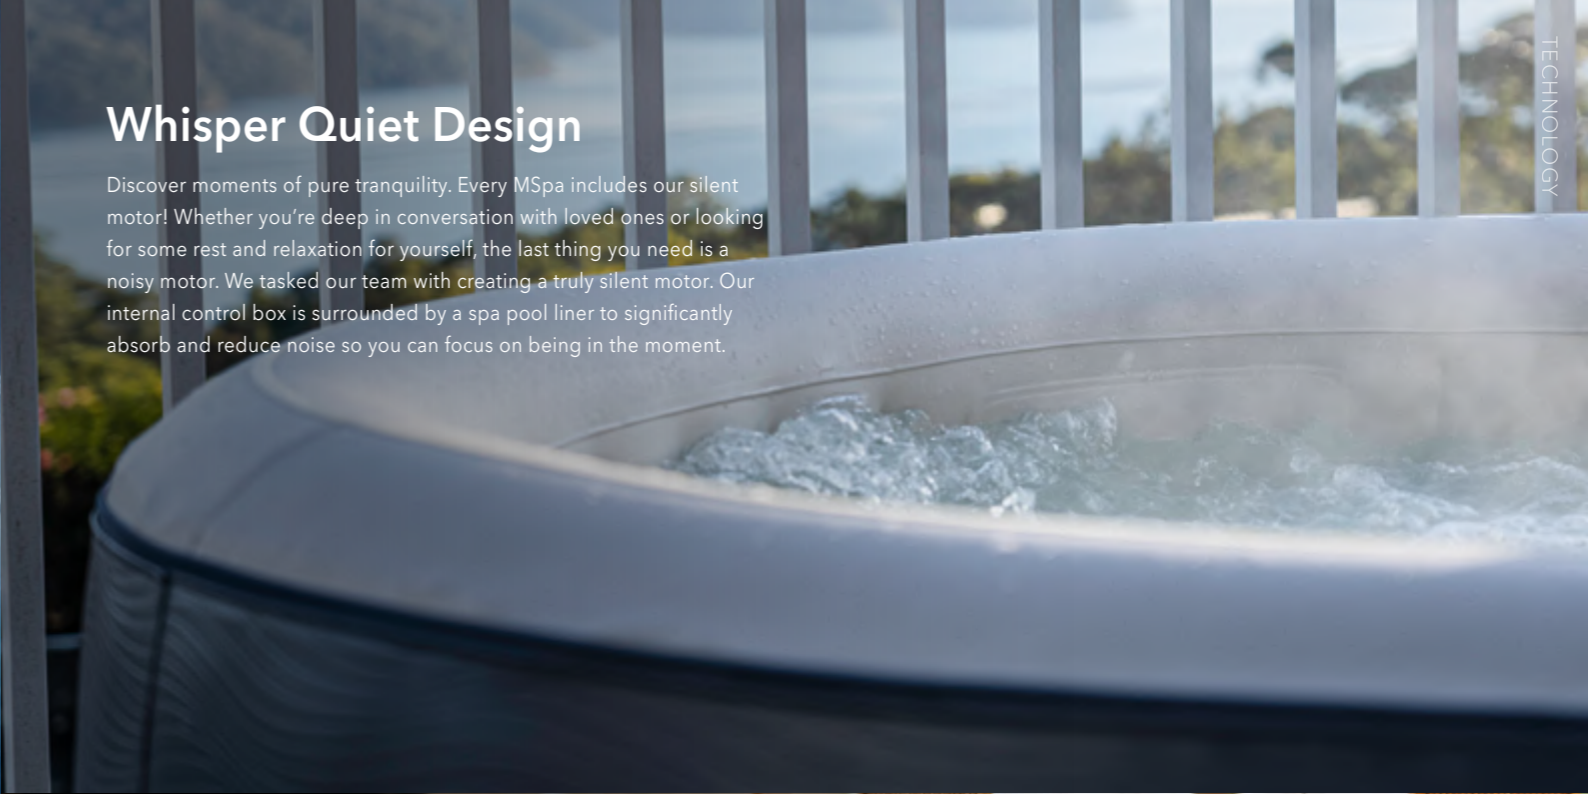

The Best Filtration System Ever

MEET MDC.™

Our MSpa Direct Current system is our most advanced filtration system yet. Featuring a brand new DC pump with specialized impeller, the system offers stronger water flow and increased circulation speed of 1800 liters per hour, a 36% improvement to our previous system and superior to current pumps on the market. Although the system boasts stronger water flow, we've cut energy consumption by 30%! Feel peace of mind as our TURBO fan construction pushes foreign objects through with ease and enjoy for years to come as the new x-ring guarantees 10,000 hours of continuous operation.

Whisper Quiet Design

Discover moments of pure tranquility. Every MSpa includes our silent motor! Whether you're deep in conversation with loved ones or looking for some rest and relaxation for yourself, the last thing you need is a noisy motor. We tasked our team with creating a truly silent motor. Our internal control box is surrounded by a spa pool liner to significantly absorb and reduce noise so you can focus on being in the moment.

Portable and Easy to Carry

One of MSpa's greatest advantages is ultra portability. Our patented compact designs are easy to carry and easy to set up or dismantle. We've integrated our advanced control boxes into the spa liner and made them ultra light weight. A built in control box means no fussy extra parts to reinstall every time you move your spa. Transport your spa with ease for road trips or just to get a change of scenery.

WORRY FREE

We want you to get the most out of your spa! That's why we set out to create spas that make maintenance and operation as simple as possible. Our spas are built to work hard, but work smart, so you don't have to work at all.

It's All In Your Palm MSPA APP.

Say goodbye to the days of reaching over your spa or worse, having to get out of your relaxing soak, just to change some settings.

With our new innovative spa app:

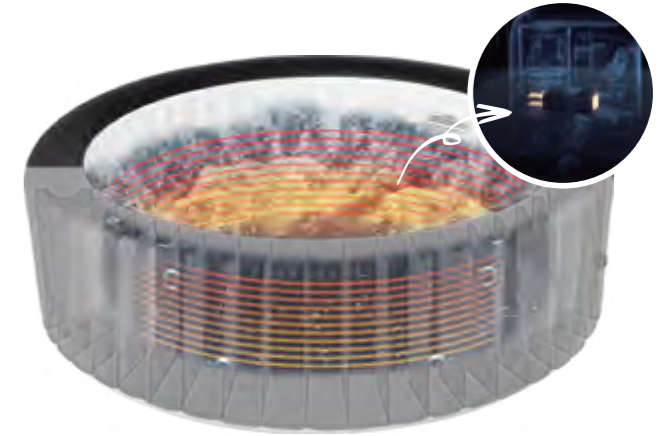

- Have full control of your MSpa at all times right at your fingertips
- Enjoy the easiest operation and usability through our intuitive UI
- Easily receive tips, notices, and alarm messages on the go so you're always in the loop

The MSpa APP is available on all Frame Series.

Anti-icing™ System

Our Anti-icing System protects your spa and control box from freezing and damage in frigid temperatures by automatically warming the water to 37.4°F whenever the water falls to less than 33.8°F. The system acts as a safety measure when a storm rolls in or the spa is accidentally left in sub-zero conditions.

Heating Timer

We all know spas can take some time to heat up and sometimes the time to start heating your spa isn't most optimal. To solve this we introduced heating timers. Simply set a time to wake up your spa heater and go about your day as normal. Our timers can be set 1 to 99 hours in advance so you can plan for any occasion.

Smart Filtration

Our intelligent smart filtration system ensures your water stays clean and ready for your next use. While the spa is in stand-by mode, our smart filtration system turns on automatically to filter every 8 hours. Whether you store your spa indoors or outdoors, it'll always be ready to go for your next relaxation session.

Note: Smart Filtration does not replace water changing and treatment. We recommend users to change the water on a monthly basis and treat water on a weekly basis.

M-ONE™ AUTO INFLATION

Our patented inflation system allows you to set up your spa in one easy step. Press the BUBBLE and UP buttons at the same time to watch your spa magically come together before your eyes. There's no need to install an additional control box and the self-inflation can intelligently monitor pressure to know when to stop inflation. Simply press and go!

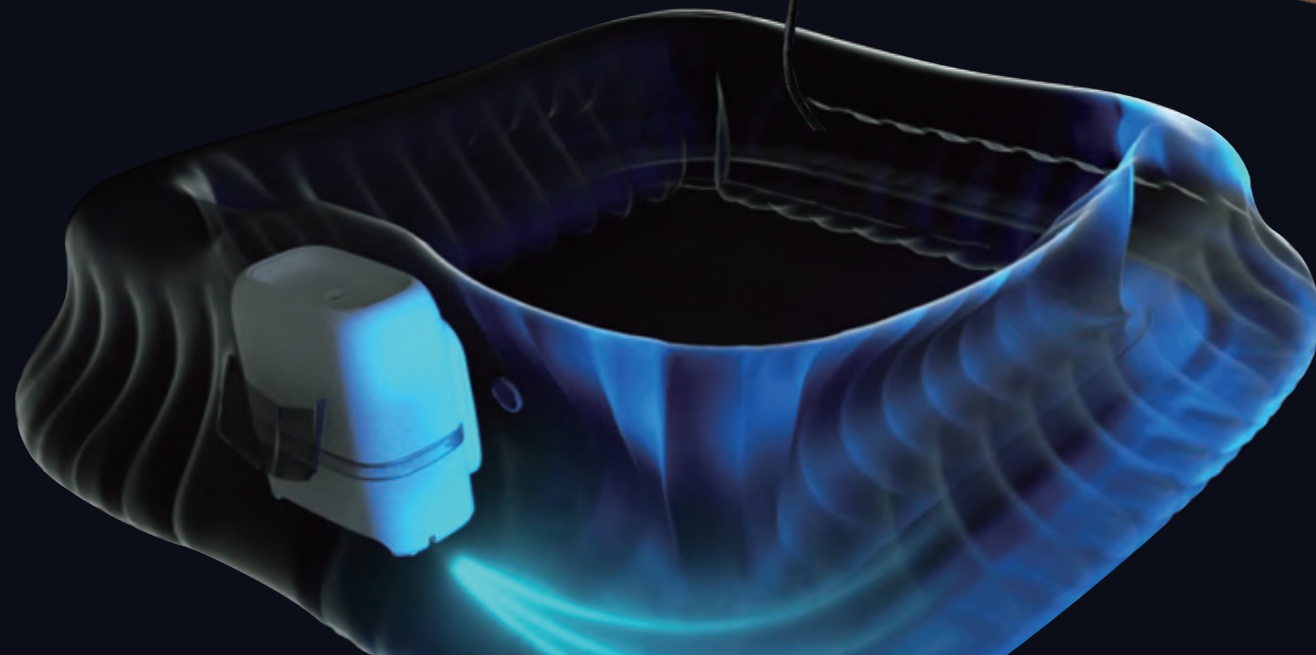

Quick Inflation

Smart Touch

User-friendly

UVC

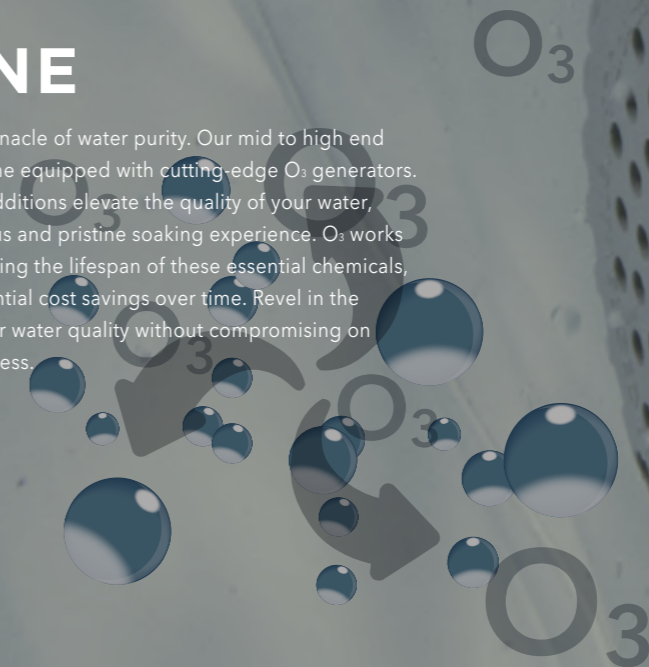

Powerful UVC sanitation kills over 60 disease causing microorganisms and pathogens without the use of harmful chemicals. Our sanitizing chamber is housed inside the spa's control box and continuously sanitizes water that passes through the chamber. Since you will never come in contact with the UVC light, this setting can be turned on while you are enjoying your spa.

TECHNOLOGY

OZONE

Experience the pinnacle of water purity. Our mid to high end spa models all come equipped with cutting-edge O₃ generators. These advanced additions elevate the quality of your water, ensuring a luxurious and pristine soaking experience. O₃ works its magic in extending the lifespan of these essential chemicals, resulting in substantial cost savings over time. Revel in the benefits of superior water quality without compromising on safety or effectiveness.

AESTHETIC

Build beautiful outdoor spaces and indoor spa oasis. At MSpa we prioritize aesthetics just as much as functionality to create spas that not only work great but look great! Utilizing delicate exterior designs we hope every spa doubles as a stunning piece for your home.

TIMELESS STYLE

We utilized plastic wood panels to recreate the beautiful rigidity of traditional spas without sacrificing any of the portability. Strong enough to withstand water pressure, the pieces lock together to create a rigid frame. The pieces are textured with delicate wood-grain like ripples for an aesthetic touch.

LUXURY COVER DESIGN

We were determined to make our spas stand out and look great. Using a simple liner with a removable cover, we were able to bring our wildest concepts to life without sacrificing on the spas ability to retain air. Our luxury cover spas feature burlap textures, woven designs, and even wave patterns to elevate your home.

VIVID PRINTING FABRIC

For a more exciting spa exterior, our printed leather spas help create a more fun and playful feeling. The printed leather is eye catching and ensures your spa is the centerpiece of your environment. Never one to blend in, these spas are here to make a statement.

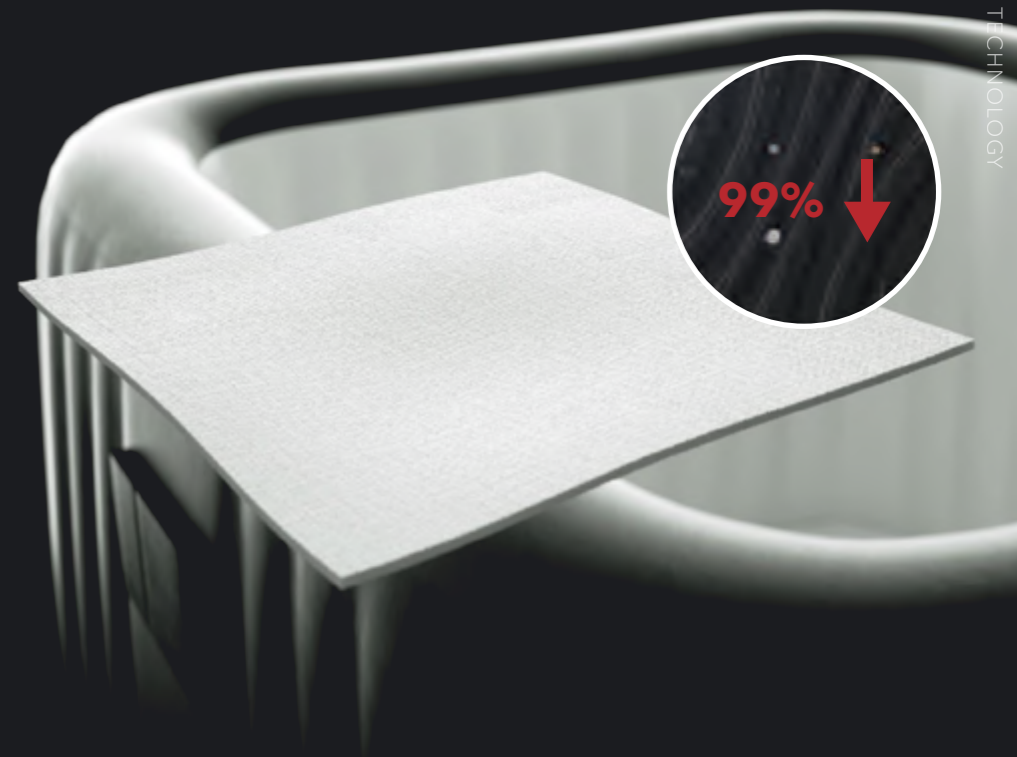

SUPERIOR EMBOSSED FABRIC

Our reinforced PVC spas feature embossed patterns for a textured appearance. Ranging from delicate grain to leather like appearances and abstract patterns, there's something to suit everyone's unique style and tastes.

M-shield™
ANTIBACTERIAL FABRIC

Clean water is the most essential foundation of a good hydromassage. Our antibacterial fabric is applied to the inner liners of our spas to enhance the sterilization performance. The fabric releases bactericidal components to reduce the reproduction of bacteria by 99%.

*Conforms to ISO 22196:2011

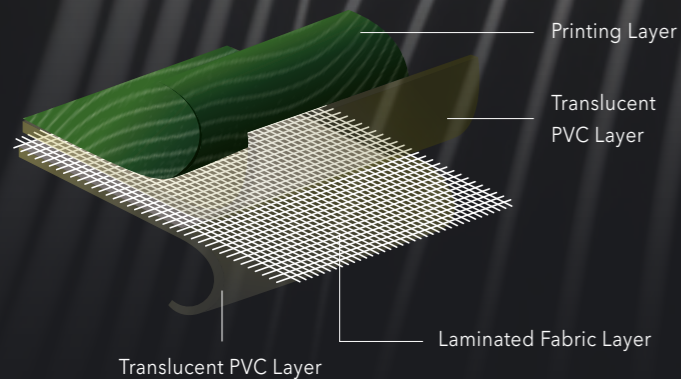

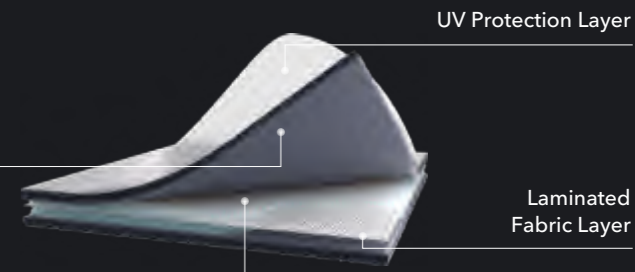

RHINO-TECH REINFORCED PVC COVER FABRIC

- UV, Frost and Tear Resistant
- Durable and Tough Reinforced PVC
- User Friendly
- Appealing Look
- Eco-friendly
- Supported by MSpa Warranty

PVC Layer

Reinforced Coating Layer
Double Sided

LIGHT UP THE NIGHT

Take your spa experience to the next level with beautiful lighting. Our light up spas feature an LED light strip at the bottom to make your spa GLOW. Translucent fabric elements allow beautiful patterns to shine through for a truly romantic environment for your evening soaks. Switch colours based on your mood and enjoy late into the night.

NON-SLIP BOTTOM

Every detail matters, even the areas no one sees! We created a subtle bump texture on the base of our spas to provide additional friction and grip. The non-slip bottom effectively counters the slipperiness of greasy film and scale formed by microorganisms to prevent dangerous falls.

FRAME SERIES

The FRAME series combines modern design with outstanding performance. Luxury wood-like finishes are applied to the spa body for rigidity and to resemble traditional built-in hot tubs while still maintaining the portability you know and love from MSpa.

SHAPED LIKE AN ACRYLIC SPA

Our luxurious textured plastic panels look just like real wood, but are lighter and more resistant to climate changes. We used timeless, neutral colours to create soothing and natural designs. When assembled, our spas look just like a high-end acrylic spa without sacrificing on any of the portability and convenience.

INFLATED, BUT RIGID

Our ultra stiff DWF material is unlike any traditional inflatable. Tens of thousands of high-strength threads are pulled taut to support the spa from within and prevent stretching while adding superior stiffness. The material allows us to keep the inflatable liners aesthetically thin without losing performance.

APP CONTROLLED

ALL-IN-ONE CONTROL BOX

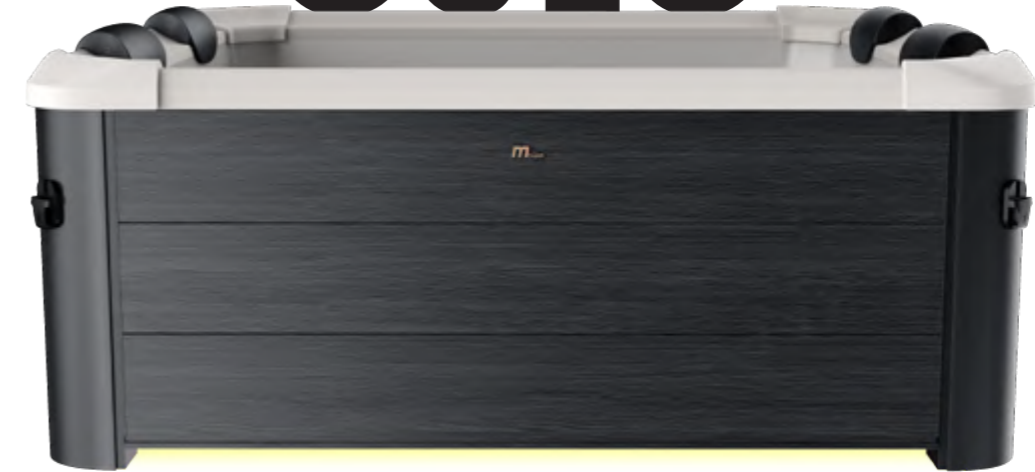

JET CONTROL BOX

Our new OSLO spa is not only stunning, but features the latest in MSpa technology. This beautiful spa packs all the rigidity of a traditional spa while sporting MSpa's signature portability and ease of installation. Enjoy multiple hydromassage jets in addition to our variable air bubbling technology while a beautiful remote controlled light strip adds a sense of luxury, creating unparalleled ambiance.

Variable Speed Bubble

Personalize the intensity of your air bubble massage.

UVC Sanitizer

The built in UVC sanitizer can kill bacteria without any harm to the user.

Smart Filtration

Our intelligent system will automatically filter regularly for excellent water quality.

Anti-icing System

As long as your spa is in standby mode, the spa will monitor the water Temperature and prevent it from freezing.

ALL-IN-ONE CONTROL BOX

All your spa controls in one convenient unit! Easily control your spa from your easy to use control center. Our newest all-in-one control box now features a protective cover to shield from harsh outdoor elements such as direct sunlight and extreme weather conditions.

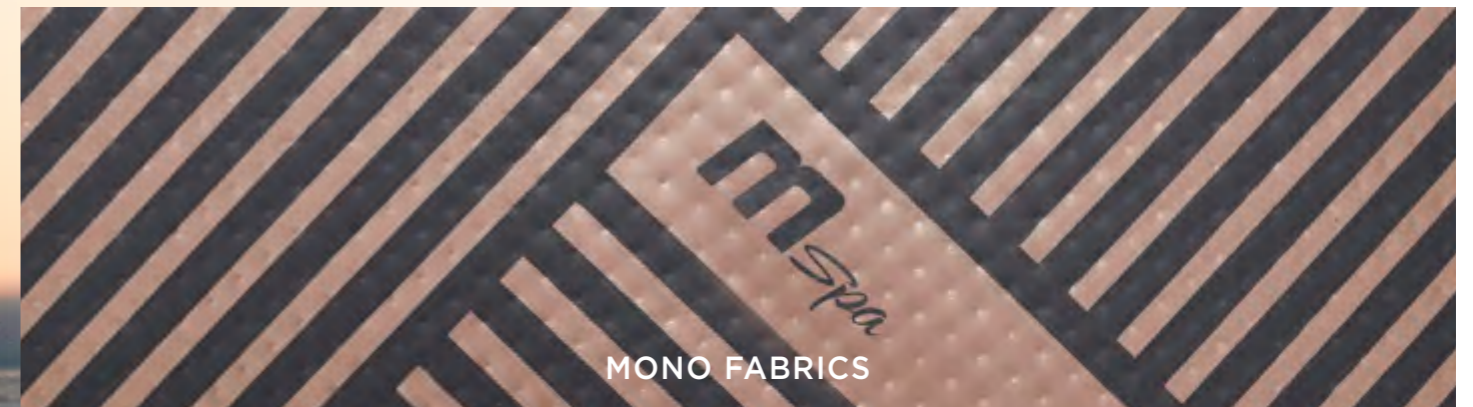

Picture for reference only.

ECO PRINTING

Introducing our new revolutionary eco-printing technique. Harnessing the power of high-precision ink nozzles, this innovative method crafts intricate patterns while utilizing minimal ink. With an astounding ink-saving rate of up to 90%, it stands at the forefront of eco-conscious practices. Featured in the DUET spa, our eco-printing technique represents a bold stride towards sustainability, where elegance and environmental responsibility harmoniously converge.

QUICK INFLATION

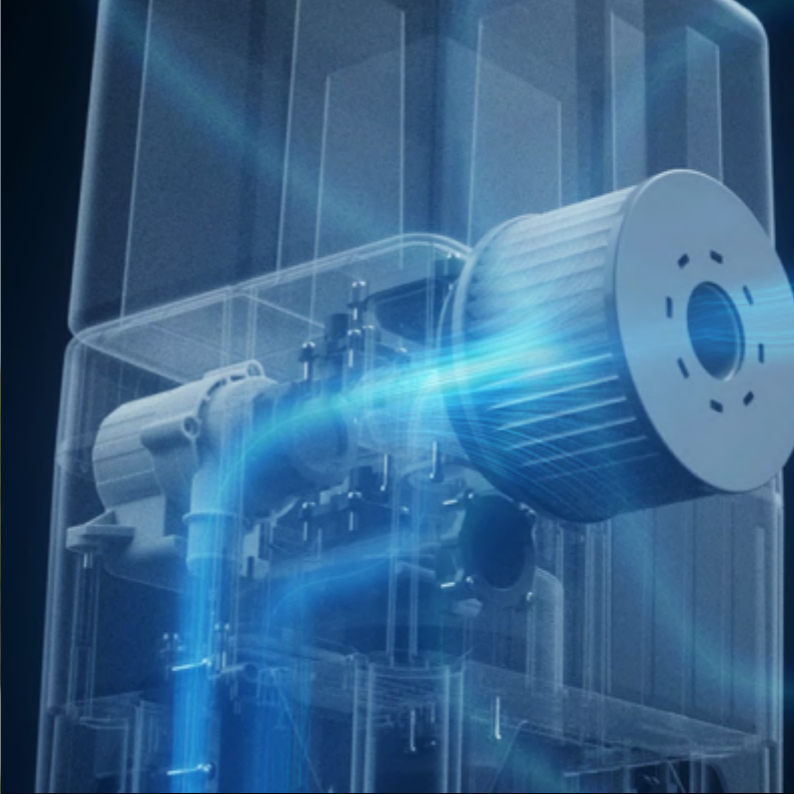

The COMFORT collection uses a simple inflatable hose for spa inflation. Utilizing our built-in control box, there is no need to fumble with fussy connectors. Simply connect your hose and click the bubble button to watch your spa rise.

MDC™ High-efficiency Filtration System

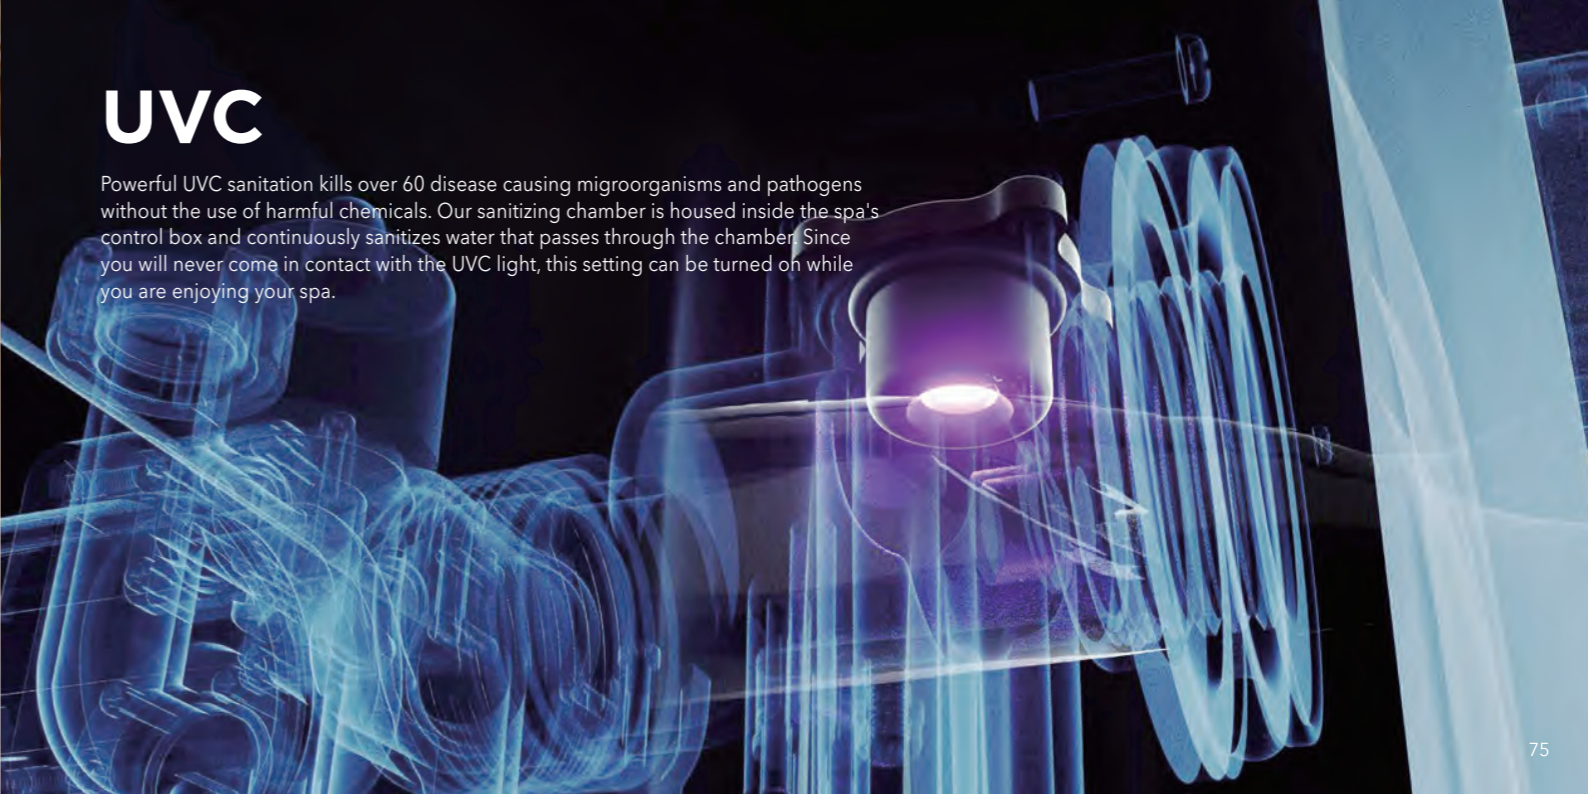

MSpa Direct Current System, which consists of a newly designed DC pump, specialized impeller, and water flow piping.

- Stronger water flow: The water circulation speed is increased to 1800 Liters per hour, which is 36% better than before. It even costs lower energy than the last generation pump by 30%.
- Safer to use: With the new TURBOFAN construction, the foreign objects will quickly get through the impeller
- Longer service life: The super tough X-Ring guarantees 10,000 hours of continuous operation.

UVC

Powerful UVC sanitation kills over 60 disease causing microorganisms and pathogens without the use of harmful chemicals. Our sanitizing chamber is housed inside the spa's control box and continuously sanitizes water that passes through the chamber. Since you will never come in contact with the UVC light, this setting can be turned on while you are enjoying your spa.

Relax, we've got your back!

BUBBLE BACKUP AIR MASSAGE

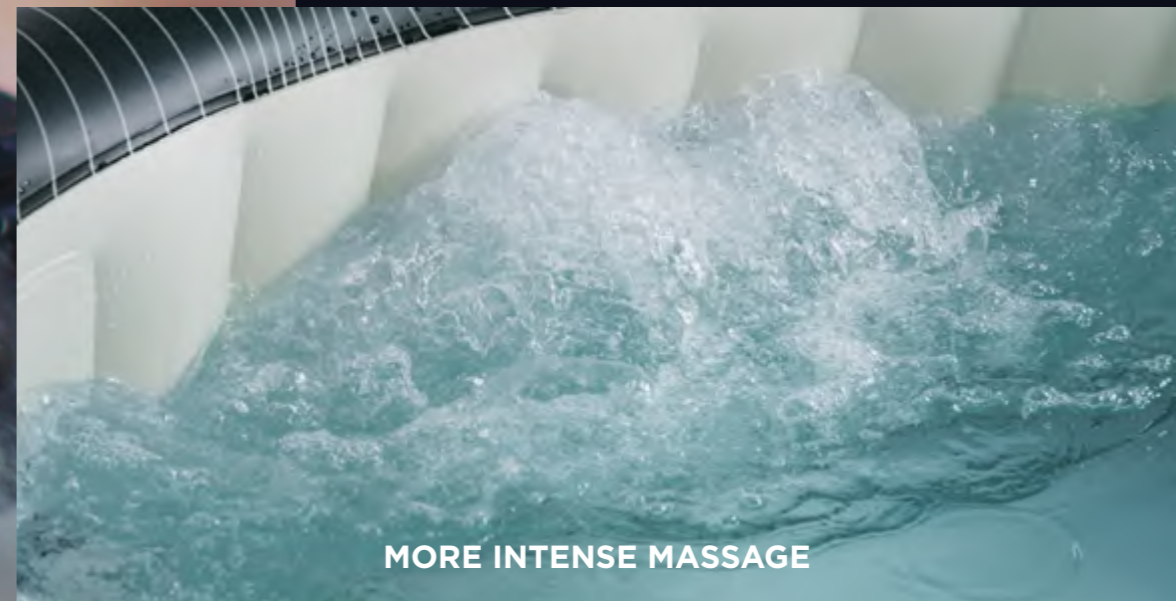

The most common malady for modern busy people is muscle pain in the back and shoulders. Bubble backup function precisely targets these muscle groups to give an overall better massage experience,

- 2 additional bubble area on each side of the control box.
- Create bubbles to massage body from closer contact.
- Provide more intense massage sensation comparing with bottom bubble.

Note: only for Meteor.

AIR JETS DESIGNED FOR SHOULDER AND BACK

MORE INTENSE MASSAGE

Our TEKAPO features an eye-catching metallic blue interior and premium charcoal grey exterior. Featuring over a hundred bubbling air jets to relax your body and mind, this spa is sure to brighten your space.

OPTIONAL ACCESSORIES

Filter Cartridge

B0303950 / B0303951

LF90 long fiber filter cartridge. 90 pleats. Twin pack. Additional base is needed for installation.

Size: ø4.2" x 2.6" (ø10.6 x 6.7cm)

Cartridge Base

B0303960

The base can be used continuously.

Size : ø2.95" x 3.3" (ø7.5 x 8.5cm).

Filter Cartridge Plus Set

B0303952

Long fiber, 90pleats, filter cartridge*6. Additional base is needed for installation.

Size: ø4.2" x 2.6" (ø10.6 x 6.7cm)

Filter Cartridge 120 pleats

B0303961 / B0303962

Twin Pack. Suitable for PREMIUM / URBAN / MUSE / FRAME collections.

Size: 4.5" X 3.4"(11.5 X 8.6cm)

Comfort Set

B0303959

Two headrests and one cup holder.

Headrest: 9.4" x 9.1" x 7.1"

(24 x 23 x 18cm). PU, light grey.

Cup Holder: 10.4" x 10" x 7"

(26.5 x 25 x 17cm). PE, light grey.

Cup holder and headrest 2-in-1

B0304063

Specially designed for DWF spa like MONO / DUET. PU material, light grey.

Twin Pack.

Size: 8.9" x 5.6" x 8.3"

(22.5 x 14.2 x 21cm)

Seat Cushion Set

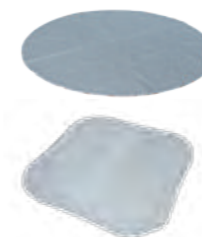

B0303963

Twin pack. Filling with water.

Champagne gold with pearl white color tone.

Size: 15.4" x 11.8" x 3.9"

(39 x 30 x 10cm).

Heat Preservation Mat

One piece bubble mat. Suitable for all Mspa products. Provides better heat retentions result.

B0304001 - for 4-person round spa ø69" (ø175cm)

B0304004 - for 4-person square spa

61" x 61" (155.4 x 155.4cm)

B0304005 - for 6-person square spa

72" x 72" (183.2 x 183.2cm)

Upgraded Heat Preservation Foam Mat

B0303967 / B0303968

Waterproof material. Connect each piece to make a square mat (pcs/pack). Protect your spa and deck. Save energy by providing thermal barrier.

Size: B0303967:

23" x 23" /pc (59 x 59 cm /pc)

B0303968:

26.8" x 26.8" /pc (68 x 68cm /pc)

Ice Box & Snack Holder

B0303964

Five cup holders around the side and center storage for ice, drinks or snacks. 25.6" x 17.7" (65 x 45cm).

Inflatable Foot Bath

B0303966

Rinse your feet before entering the spa. 34.6" x 26.8" x 5.1" (88 x 68 x 13cm).

Offset Patio Umbrella

B0304000

Size: 10' (300cm).
Height: 8'4" (250cm).
Metal frame, polyester fabric umbrella. Easy installation and maintenance.

Canopy

B0303999

Keep the spa from UV and wind. Customized for MSpa products. Fit to all sizes of the MSpa products. UPF 50+

Inflatable Can Cooler

B0303965

Holds drink bottles or towels. This can also be used as ice can to keep drinks cool. 16.5" x 20.1" (42 x 51cm).

Wicker Conversation Set

B0303998

Include 1 table and 2 seats. Seat cushion included. Seat size: 28.5" x 24.5" (72 x 62cm). Table size: Dia. 20" x 24"H (Dia.50cm x 60cmH).

Floating Lamp

B0303954

5 lighting modes
Static mode / Flash Mode /Strobe Mode / Fade Mode / Smooth mode
Size: 4.7" x 4.7" x 4.7" (12 x 12 x 12cm)
Charging cable included. Plug is not included.
Need 1*CR2025 coin battery (Not included) for the controller.

Underwater LED Light

B0304062

Underwater LED light with a hook and a remote controller, IP68. To hang on the filter cartridge base. Need 3*AA batteries(Not included) for the light and 1*CR2025 coin battery (Not included) for the controller.

Spa Overall Cover

Protect spa tub from rain and sunshine.

B0303955 - 4-person spa.

75" x 27.5" (190 x 70cm)
