UNIQUE FEATURES

TRUE HEPA FILTER Traps 99.97% of particles as small as 0.3 microns. That's as small as some bacteria.

HI-C CARBON WEAVE FILTER for basic airborne chemical, gas and odor filtration.

CLEANABLE PRE-FILTER Simply vacuum through the mesh or change as necessary.

PRESSURE SEAL on the filter chamber ensures all the impurities pass through the filters and deliver a real 99.97% filtration.

FELT GASKETS SEAL THE FILTER CHAMBER. Maximize filtration with no rubber off-gassing found with other filters.

ALL METAL HOUSING ensures no plastic vapors are emitted.

VARIABLE SPEED MOTOR lets you choose your ideal level of filtration.

MOTOR OUT OF THE AIR FLOW. Most air purifiers blow the clean air over the motor and pick up impurities
