

## STUDENT BOARD AND TRAIN

Whether you need to board for one night, the weekend, or longer, your puppy or dog will spend their days with their KSDT family! They'll enjoy walks, supervised play with their friends, and at night, they'll have a sleepover at their favorite team member's house, so they feel like they're HOME.

**Student Board and Train:** Your dog plays and trains at school, and sleeps at a team member's home for the period requested.

- **Rate: \$70 per dog/night + \$30 PlayCare + Required Training**

PlayCare fees are reduced from \$42 to \$30 during your dog's boarding stay.

**Our transport service can even pick up your dog on the day you leave for vacation and bring him home when you return! Email [KSDT.Transport@gmail.com](mailto:KSDT.Transport@gmail.com) to add this service.**

### Before Submitting a Boarding Request

Please note that standard boarding is reserved for current students who are actively training (i.e. attending training at least once every two weeks). We cannot accept requests from non-current students.

**Actively Training = You and your dog have participated in training with KSDT within the last two weeks via virtual private lessons or classes, in person private lessons or group classes, phone consults, or FastTrack. Virtual workshops and online courses do not count towards this requirement.**

If you're interested in boarding \*without\* a training prerequisite, ask us about our Intensive Board and Train or Puppy Boot Camp programs!

**\*If your dog has not attended training with KSDT within the last two weeks (as defined above) when they arrive for boarding, a non-student fee of \$20/day will be added to your reservation. Please make sure you understand this policy before submitting your requested dates. Thank you!\***

### Required Training

We believe that keeping your dog's body and brain engaged is the best way to keep them happy and to achieve the training goals you've been working on in classes. If you're not sure what you'd like us to focus on, we'll give you some ideas! For advanced dogs, they'll have an opportunity to be challenged in off-leash classes, on field trips, and other fun venues.

The cost for training is \$68 for 30 minutes.

- 1 night: No training required for current, active students
- 2 - 3 nights: one 30 minute session
- 4 - 7 nights: two 30 minute sessions

## KATHY SANTO DOG TRAINING | Board and Train Program

---

- 8 - 12 nights: four 30 minute sessions
- 13 - 18 nights: six 30 minute sessions

Because our 'PlayCare Only' day guests can also schedule training, please confirm the amount of training you're requesting in your initial boarding inquiry. That way, we can guarantee that we'll have availability to train your dog.

### Vaccination Requirements

Of course, we require your dog to be current with his vaccinations.

If your dog needs his vaccinations updated, we prefer it to be administered at least 5 days prior to your boarding check-in date. Titers are accepted with proper documentation.

**Rabies:** Required by at least 6 months of age. For Puppies: check with your vet for their preferred age of initial vaccination.

**DHPP:** Current in the last year.

**Bordetella:** Current in the last six months.

**Vaccine documentation should be added directly to your ProPet Student Portal.** Please provide us with a copy of an invoice that shows your dog's Rabies, Bordetella, DHLLP vaccines are up to date. Please be sure the records show the DATE THE VACCINE WAS GIVEN, not just the expiration date. (Most Bordatella vaccines will show an expiration date 1 year from the date it was given, as opposed to 6 months).

### Upper Respiratory Infections/"Kennel Cough"/"Canine Cough"

Typically a misunderstood topic, we want to make sure our students are educated and informed.

The possibility of dogs contracting an upper respiratory infection (URI) also known as "kennel cough" or "canine cough" is always a risk whether they are at daycare, boarding, a vet office, or really anywhere other dogs are present! Although we require up to date bordatella vaccines, different strains can occur that may not be covered by the vaccine your veterinarian administered.

### Ready, Set, Pack!

**Food:** Please send your dog's pre-measured meals in individual bags or containers marked with their name and type of meal (i.e. Breakfast, Lunch, Dinner). **Food that is not individually bagged/measured will incur a service fee of \$5/day.**

**Medication:** Please only send enough pills for your dog's stay with us and include dosing instructions in the Ziploc bag with the medication.

*No need to pack crates, bowls, toys, or beds. We have everything!*

### How To Submit a Boarding Request

Boarding can be requested through your ProPet profile up to 60 days in advance. Once your request has been received, we will check with our team for availability and let you know as soon as we can if we have a spot open for your boarding dates.
