

MICH HELMET

HIGH CUT

The MICH high cut is specifically designed to leave the user's ears exposed. This design feature makes the helmet compatible with headset devices.

The MICH High Cut helmet utilizes our unique combination of aramid and thermoplastic resin to provide maximum protection and durability at a minimal weight.

Ergonomically designed to offer impressive coverage without limiting movement or vision, the MICH High Cut exceeds NIJ IIIA protection and provides additional fragmentation protection. The MICH high cut is specifically designed to leave the user's ears exposed. This design feature makes the helmet compatible for headset devices.
