Instruction manual Devside Trading

1. After purchase

Upon purchasing a Devside Trading product you will receive your order confirmation via email. The email contains your license key which you will need to activate your product. You can find the license key in the top right corner of the email.

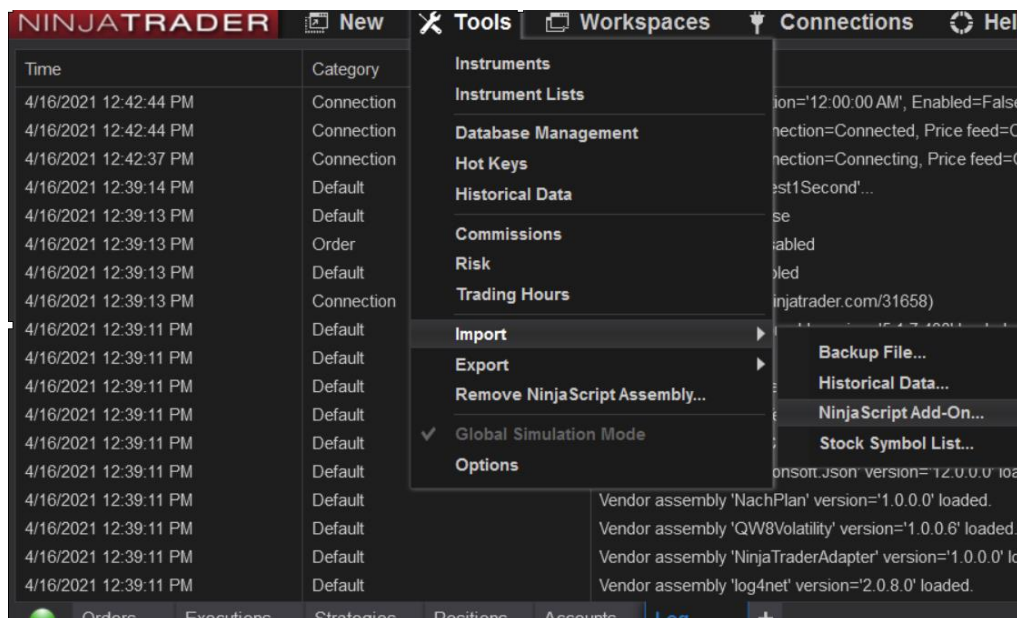

You will also receive your software as a .zip-file directly after the purchase on the website and in a separate email.

2. Installation

To install and use Devside Trading Product with NinjaTrader 8, please follow these steps:

1. You will receive the add-on in form of a .zip file.
2. In NinjaTrader 8, select **Tools** → **Import** → **NinjaScript Add-On**.

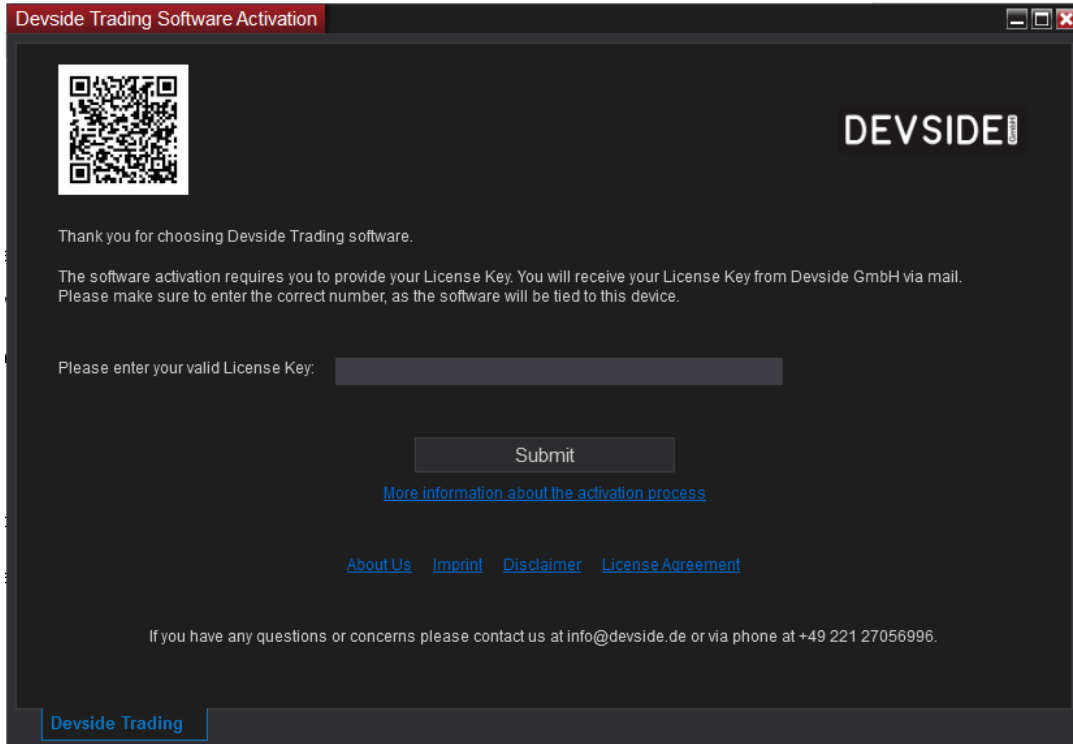

3. From your file explorer, choose the .zip file that you downloaded and open it. A pop-up will confirm the successful installation.
4. After the installation, please restart NinjaTrader.

3. Activation

To activate your product, you will need your license key you received per email after purchase.

1. In the **Control Center** please select **New** → **Devside Trading**. This will initiate the software activation process.
2. In the software activation window, please follow the instructions and enter your License Key which you have received via email and click **submit** to activate your software.

Devside Trading Software Activation

DEVSIDE

Thank you for choosing Devside Trading software.

The software activation requires you to provide your License Key. You will receive your License Key from Devside GmbH via mail. Please make sure to enter the correct number, as the software will be tied to this device.

Devside Trading

4. Indicator

To use an indicator, you simply need to create a new chart or use an existing one and add the indicator to it.

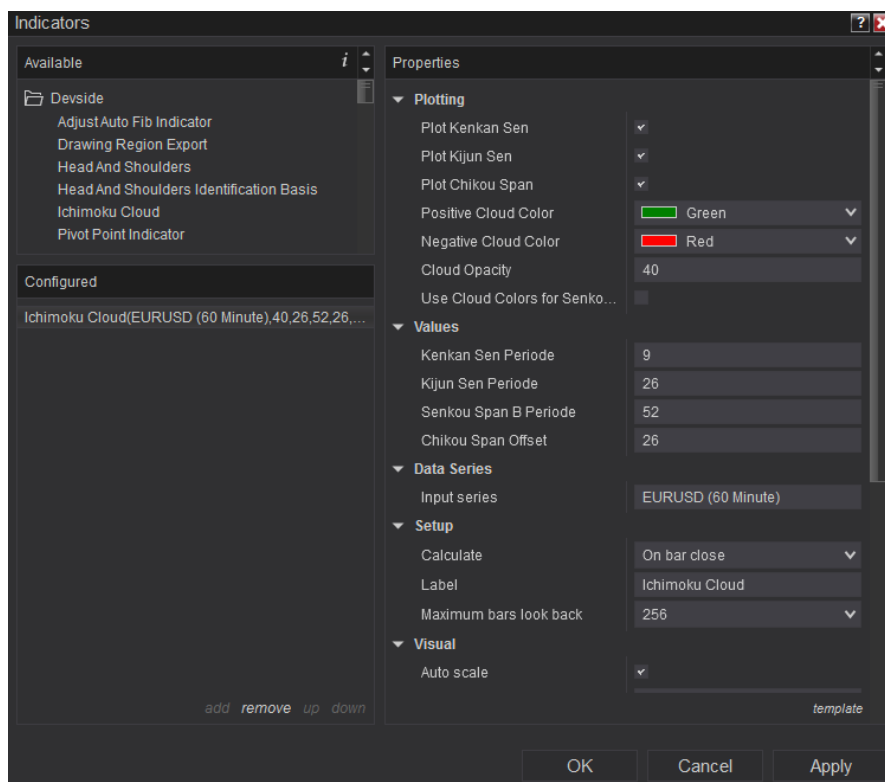

1. Create a new Chart from **Control Center** → **New** → **Chart**

2. Right click the chart and select **indicators**.

3. On the left side under **Available** select the desired indicator and add it to **Configured** by clicking **add**. Set the properties for the indicator on the right side of the window and confirm with **okay**.
