

SC370

Compact, easy-to-operate,
walk-behind scrubber dryer

NILFISK

Effortless cleaning in congested areas and tight spaces

Highly maneuverable, agile, effective cleaning

Everyday floorcare made easy

The SC370 walk-behind scrubber dryer provides daily, medium-scale floorcare with easy operation, reliable performance, and lowered water and detergent requirements to better and more efficiently clean your floors. The SC370 features a wide brush deck, large tank capacity, and efficiency features that help keep costs to a minimum. Designed to clean a wide variety of floor surfaces the SC370 is an excellent solution for maintaining cleaning standards in retail, hospitality, and schools.

Clean a variety of floor types

Versatility that ensures optimum performance

User-friendly operation The advanced control panel features a handy one-button start-up in addition to primary controls made easily accessible from the user operator position.

Flexible and Quiet With a lower noise output and decreased footprint, the SC370 allows users to operate the SC370 virtually any time of day. Silent mode technology greatly decreases noise pollution, while remaining non-intrusive when cleaning high-traffic areas or busy public spaces.

Highly maneuverable Walk-behind scrubber dryer with a compact squeegee design that helps the machine to easily operate in small or congested areas.

ECO Mode Technology reduces energy consumption in lighter cleaning applications while increasing productivity with extended run time.

Simplified maintenance With handy tool-free removal and assembly of squeegees.

Clean anytime, anywhere

Navigate narrow aisles, hallways,
and high-traffic areas without interruption

Technical specifications

Description	Unit	SC370 43B
Reference number		50000627
Scrub deck type		Disc
Scrub brush size	mm	432
Productivity rate theoretical	m ² /h	1720
Min. aisle turn	cm	103
Brush motor power	W	400
Solution / recovery tank capacity	L	25/25
Sound pressure level	dB(A) +/-3	67
Sound pressure level in ECO or silent mode	dB(A) +/-3	63
Voltage	V	24
Brush speed in normal/ECO mode	RPM	140/100
Weight (GVW)	kg	134
