INSTALLATION**

**FREE
STANDING**

**AUSSIE OWNED
& DESIGNED**

Steelspan is Australia's trusted team of experts in storage solutions. Whether you are looking to organise your garage, workshop, warehouse, retail or office space our customisable and expandable solutions are ready to be delivered nation wide.

We are a family run business with decades of combined experience and have helped thousands of customers find the perfect storage solution.

Designed and fabricated in Australia, Mezzanine Structures are a cost effective way to increase your usable storage and office space and can be tailored to your business specific needs.

Mezzanine Structures are free-standing, meaning they can be fabricated, installed, and be ready to use in a short amount of time. They are designed to suit your requirements by completing a site measure prior to design work.

We have years of experience in constructing floors both small and large. And for a number of uses including light-weight office to heavy-duty storage, and even two-level floors.

Mezzanine Structures can be configured to your needs with Stairs, Handrails and Up and Over Pallet Safety Gates and are a practical way to improve your current site, without the need to move.

**AFTER PURCHASING CHEAP, LESSER QUALITY PRODUCTS FROM INTERNET SELLERS, I DECIDED TO GIVE STEELSPAN A GO. I AM THRILLED WITH THE QUALITY OF THE PRODUCTS AND THE ABILITY TO TAILOR THE SIZES ACCORDING TO MY NEEDS. GREAT SERVICE AND FAST DELIVERY ALSO. 11/10.

FEATURES

An in depth look at Steelspan Mezzanine Structures.

MEZZANINE FLOOR

Highly customisable and configurable way of increasing floor area. Manufactured to meet Australian Safety Standards and BCS requirements.

Can be fabricated to almost any dimensions required for business specific needs.

Customisable Handrails available.

Manufactured from high quality Australian steel.

Attachable to walls or free standing.

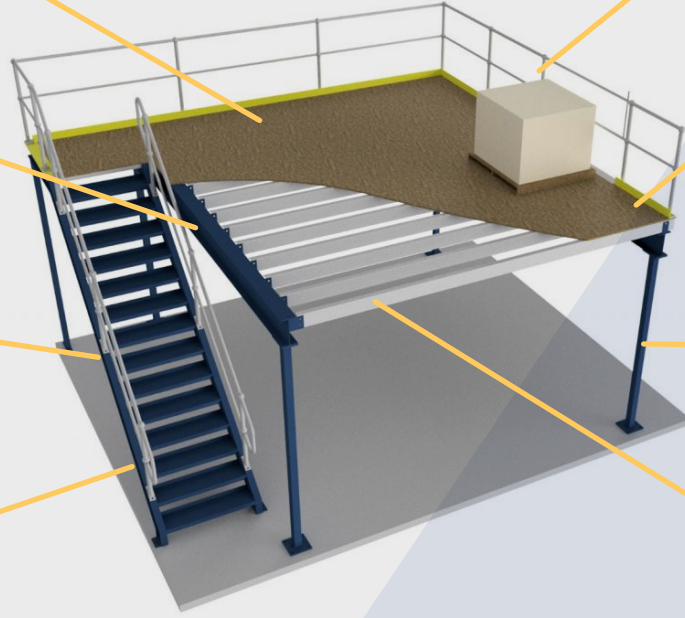

Staircases available which are also customisable in their construction and positioning.

Can be configured as a two level structure.

Short fabrication lead times and quick installation means that structures are ready to use in a short amount of time.

Configurable weight capacity - 500kg/PSM for Raised Storage Area, 350kg/PSM for Mezzanine Office or Workspace.

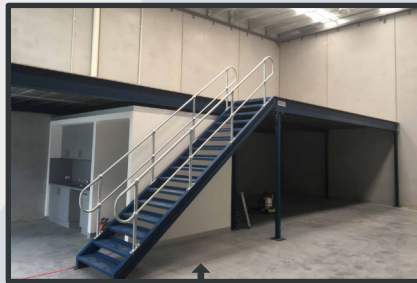

MEZZANINE OFFICES

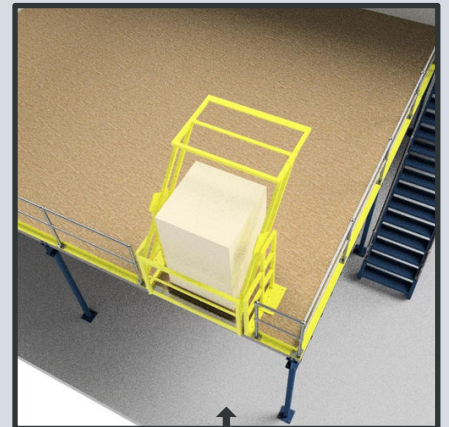

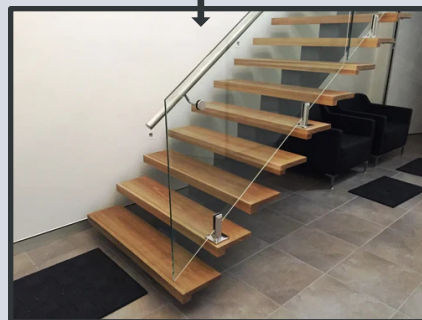

Mezzanine office floors are an easy and cost-effective way of adding a separate office workspace to your existing business or warehouse. Our mezzanine offices are manufactured as free-standing structures, which means that they can be built to maximise the use of your floor space without needing to move locations.

Whether you want an office that overlooks your factory floor or a private workspace tucked away in the corner of the warehouse, we design each piece with your requirements to guide the construction. Everything from floors to walls and staircases can be designed to suit your vision of your new office.

We design, fabricate and install a range of staircases including industrial staircases, fire-staircases and others suitable for offices. All of our staircases are designed using steel but can be supplied in a number of configurations including wooden treads, spine designs, and more.

Up and Over Pallet Safety Gates are designed to provide a safe way to move stock up and down a raised storage floor or Mezzanine Structure. They are customisable and fabricated in house.
