

# Hydraulic leveler PlateMaster®

for large sheet metals and plates

## Features of the PlateMaster®

Especially for large sheet metals and thick plates

Robust and invulnerable to dirt

Easy and quick cleaning of the leveling unit

Consistently good leveling results due to servo-hydraulic leveling gap control

Hydraulic overload protection

EXPERTS IN LEVELING

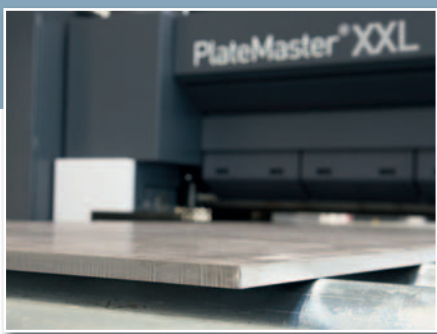

# PlateMaster® XXL

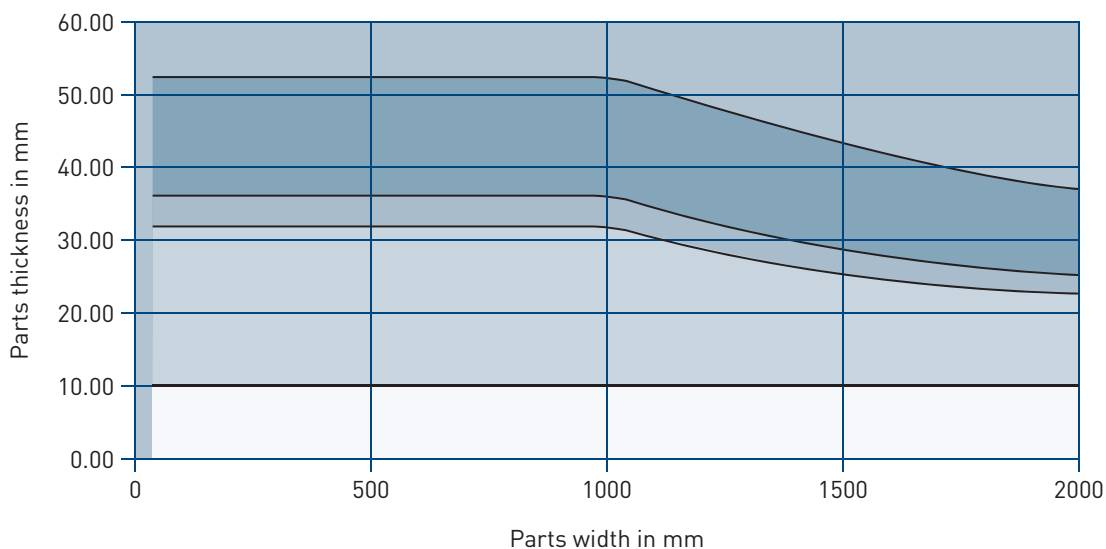

▲ Consistently good leveling results due to servo-hydraulic leveling gap control.

Essential: hydraulic overload protection when leveling thick plates.

Control with multi-touch screen.

## Leveling performance of the PlateMaster® XXL

yield point Rd 0.2

- 220 N/mm<sup>2</sup>
- 480 N/mm<sup>2</sup>
- 600 N/mm<sup>2</sup>
- lower limit

Max. passage width: 2,000 mm  
Min. parts length: 550 mm

Disclaimer: The values, shown in the leveling diagram, are based on experience. In practice, the values can diverge from the diagram shown alongside.
