

# ARSÈNE

CATALOGUE 2024

## WHERE IT STARTED

What began in 1906 as a local carpentry workshop in the heart of West Flanders, has grown into a fully-fledged producer of Belgian furniture.

Driven by a passion for manufacturing quality furniture, the knowledge was passed on from generation to generation.

Today, the 4th generation makes its appearance with a new concept, **Arsène**. A nod to his great-grandfather and furniture maker *Arsène Defrancq*.

## WHERE IT'S GOING

**Arsène** grew out of the expertise of the existing activities in Ledegem, and with a strong focus on contemporary design pieces.

The first series of organic mortex tables is the starting point of this story.

The selection of products being made is always available in different variations, tailored to your personal wishes.

With a wealth of knowledge and experience in house, sustainable pieces are produced that contribute to the slow furniture movement. A guarantee of quality items that last.

# MORTEX

Mortex is a microcement that is processed in several layers to give it a robust finish. The pieces are given a matt finish that looks and feels natural.

Because of this manual workmanship, each piece is unique. Slight differences in colour or unevenness are common and make it an organic whole.

The handmade tables are stain resistant and easy to maintain. Strong acids or anti-scaling products should be avoided.

# PRICES COFFEE TABLE (incl. VAT)
