

RODENTHOR™
ADVANCED RODENT CONTROL

BLOCK RODENTICIDE

A true single feed rodenticide in all situations, against all species of rats & mice*

IRRESISTIBLE TO RODENTS

CONTROLS ALL RODENT SPECIES

This highly palatable extruded block is irresistible to mice and rats

Ready to use block bait is suitable for use in damp or dry situations in and around industrial, commercial, public services, agricultural and domestic buildings

Controls rodents resistant to other anticoagulants, including warfarin, coumatetralyl and bromadiolone

Economical 15 g block size allows more placements, reduces wastage and provides for more effective control of rats and mice

Ensystem is the NEW leader in rodent control technology and stands behind every product

* Active constituent : 0.05 g/Kg Brodifacoum. One feed is sufficient to kill rats and mice. Although rats and mice will continue to eat the bait after a lethal dose has been eaten, the directions for use are intended to minimise this.

RODENTHOR™
ADVANCED RODENT CONTROL

BLOCK RODENTICIDE

RODENTHOR BLOCK RODENTICIDE USES A TARGETED DOSAGE SO YOUR BAIT GOES FURTHER

RODENTHOR Block Rodenticide is a tough, efficient eliminator of rats and mice.

The extruded block has effective weather-resistance to make it survive in any environment. One feed is all that is required to kill a rodent - The 15 g block uses the most potent rodenticide on the market and is optimised to tackle rodents without using excessive bait, so your purchase goes further.

Species*	Brodifacoum	Bromadiolone	Difenacoum	Flocoumafen
Brown rat	5.4	32	36	5
Black rat	14	39.6	28	28
Mouse	8	34	16	48

* LD50 values in mg/kg bodyweight for each species

RODENTHOR BLOCK RODENTICIDE WORKS EITHER STAND-ALONE OR AS PART OF YOUR RODENT CONTROL SYSTEM

Nails or wire may be used to fix blocks to prevent them being removed by rodents. Alternatively use RODENTHOR Block Rodenticide to enhance the effectiveness of your other RODENTHOR products...

BAIT STATIONS

The ENSYSTEX Beta and Peti Bait Stations are the most cost effective rodent Stations in Australia, with child resistant features, rod for wax blocks and a patented quick release system for securing to the wall

Peti Bait Station

Beta Bait Station

RODENTHOR Block Rodenticide fits perfectly inside the Stations. All ENSYSTEX Stations can be personalised with your company name and phone number.
