

# SOFT BAIT

# FATAL ATTRACTION

**RODENTHOR™ SOFT BAIT** is irresistible to rodents, and a single feed is lethal to **every** rodent, **every time**.

Prepared using the finest ingredients, RODENTHOR's soft pasta base is by far the most palatable bait presentation for rodents.

**RODENTHOR™ SOFT BAIT** is based on the 2nd generation anticoagulant brodifacoum.

Each 15 g sachet is enough to kill a rat, whilst ensuring your purchase goes further.

The edible sachets allow the release of the carefully selected aromas which draw rodents to the bait. They then readily feed on the high protein, moist pasta-based bait which provides both a high quality food source, and moisture.
