

# ENTRAP™

— NATURAL INSECTICIDE —

**NATURAL & POISON-FREE**  
Kills by Physical Mode of Action

**DERIVED FROM PLANTS**  
Only Uses Natural Ingredients  
Approved for Use in Food

**BROAD SPECTRUM**  
All Crawling & Flying Insects

**FAST KNOCKDOWN**  
Rapid Kill by Immobilising Insects

**100%  
POISON  
FREE**

**A TOTALLY NATURAL INSECTICIDE FROM ENSYSTEX**

**All Natural, Low-Toxicity & Poison-Free!**

ENTRAP employs a purely physical mode of action to trap and immobilise a wide range of insects and arachnids. It contains NO neurotoxic components. It works like a sprayable sticky spider's web to encase and rapidly immobilise the insects. Death arises from the insect having been immobilised (caught in the web) and left unable to move, just as if it were entrapped in a spider's web.

ENTRAP is sprayed directly on to the target pest, where the unique polymer structure of the cellulose encases the insect and restricts its ability to move. This rapid immobilisation then leads to the death of the insect.

**ENTRAP Kills Even The Toughest Pests**

Since ENTRAP is poison-free and has a purely physical mode of action, entrapping and immobilising the insect, it will also just as quickly kill those insects that are resistant to traditional pesticides.

And ENTRAP has no residual performance, so it quickly disappears from the environment.

**Professional Opportunities**

ENTRAP provides professional pest managers the opportunity to offer clients a poison-free pest management solution. More and more often, we hear people demanding that they want low-toxic, natural pest solutions. ENTRAP enables you to deliver on this premise. ENTRAP is widely used in Europe by professional pest managers for this very reason.

**Works like a spiders web to encase and immobilise the insects...**

## HOW DOES IT WORK?

Death arises from the insect having been immobilised, just as if it were caught in a spider web.

1

SPRAY ONTO ANY INSECT OR SPIDER

2

WATCH THEM STOP IN THEIR TRACKS!

3

INSECTS & SPIDERS ARE ENCAPSULATED AS THE WEB COATING HARDENS

**1 Litre**  
**CONCENTRATE**

Makes 8.5 litres  
of ready-to-use  
spray.

## Why Use ENTRAP?

**Poison-free**

**Food-grade**

All ingredients are approved for use in foods for human consumption

**Naturally derived from pine trees**  
grown in sustainable forests

**Rapidly immobilises pest insects**

which leads to their subsequent death

**Works like a sprayable spider's web**

**Kills insects resistant to traditional insecticides**

**Water-based spray**

**Certified for organic use**

**Ready-to-use formulation**

**Certified  
Allowed  
Input**

ACO CERT. NO. 11839

Approved for  
industries which  
require an **ORGANIC  
INPUT PRODUCT.**

**SCAN CODE**  
to watch ENTRAP  
*in action!*

**ENTRAP** is made from the same **plant-derived cellulose polymer** that is used to coat **pharmaceutical capsules**, as well as in the **food industry** as a filler in processed foods.

## ENTRAP KNOCKS PESTS DOWN – FAST!

PEST	KD TIME	TESTED BY
GERMAN COCKROACH - ADULT	10 seconds	Pest Research Consultants (Australia)
