

KEEP OUT OF REACH OF CHILDREN
ECOTOXIC

FUMITHORTM DELTA

INSECTICIDE SMOKE GENERATOR

ACTIVE INGREDIENT: 20 g/kg DELTAMETHRIN
ALSO CONTAINS: 244 g/kg POTASSIUM CHLORATE

For the control of a range of insect pests
as specified in the Directions for Use.

Net Contents: 400 g (20 x 20 g Generators)

ENSYSTEX NEW ZEALAND LTD
17C Corinthian Drive, Albany, Auckland 0752
www.ensystex.co.nz | Tel: 0800 ENSYSTEX (0800 367 978)
Approved pursuant to the HSNO Act 1996, Approval Code: HSR 101185

GENERAL INSTRUCTIONS

Remove people, mammals, fish and birds from area to be treated. For best results, ignite the generator late in the evening and leave area closed overnight.
All building openings, including doors and vents, must be closed prior to ignition. The intended exit door of the building should remain open until operator leaves the building after ignition.
Place the generator on a fireproof base, on a protective floor covering or in a metal bucket. DO NOT remove protective cellophane sleeve around the generator.
To ignite, light the protective cellophane sleeve, lighting those cellophane sleeve around the generator.
Always ignite those generators furthest away, lighting those nearest your exit last. Leave immediately after lighting smoke generators.
The generator will burn for approximately 30 seconds, however keep area airtight for at least 3 hours after lighting. Ventilate for 60 minutes before re-entry.

PRECAUTIONS

DO NOT use in premises when food producing animals are present.
Remove or cover exposed food, food utensils, food processing areas, pet bowls and fish tanks. Aerators should be turned off while the product is in use and while the aquarium is covered.
Turn off or isolate smoke detectors before using this product.
Remove all RAYON and SILK fabrics (clothing, curtains, drapes, etc.) from the area to be treated as discolouration may result.

Batch No.:

Date of Manufacture:

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Very toxic to fish. Fish tanks and aquariums should be removed or covered prior to use of this product. DO NOT contaminate soils, streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight. Dispose of used smoke generator safely, wrap empty generator in paper and place in waste bin.

SAFETY DIRECTIONS

DO NOT inhale vapour. Leave immediately after lighting smoke generators. Thoroughly ventilate treated areas before re-occupying. Wear respirator and gloves to collect used generators.

FIRST AID

For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately.

SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet which is available from Ensystex.

DIRECTIONS FOR USE

Situations	Pests Controlled	Rate	Critical Comments
Commercial, industrial, agricultural, domestic and public services buildings	Ants, aphids, caterpillars, cockroaches, fleas, flies, mosquitoes, hide beetles, silverfish, bed bugs, spiders, stored product insects, bird mites, carpet beetles, clothes moths.	1 generator/ 125 m ³	Refer to "General Instructions" before using this product. Insects active at the time of smoke release will be controlled, but those hatching from eggs, immigrant insects or storage insects emerging from commodity residues may not be controlled.
Glasshouses ornamentals only	Aphids, caterpillars.	1 generator/ 250 m ³	Refer to "General Instructions" before using this product. If pest populations are heavy, a second smoke release 2 to 3 days later may be required to reduce the insect population to an acceptable level. For best results use late in the evening, leaving treated area closed-up overnight. Do not use as post harvesting treatment.
Agricultural buildings and animal housing	Ants, cockroaches, fleas, flies, mosquitoes, silverfish, spiders, flies, mosquitoes.		

HSNO Hazard Classifications: 5.1.1B, 6.1D, 6.3B, 6.4A, 6.9B, 9.1A, 9.2D, 9.3C, 9.4A

Approved Handler: This product must be under the personal control of an Approved Handler when -
a) applied in wide dispersive manner, or
b) used by a commercial contractor.
Record Keeping: Records of use must be kept if more than 3 kg is applied or discharged within 24 hours in a place where the substance is likely to enter the air or water and leave the place.

TOXICITY

Harmful - May be harmful if swallowed or inhaled. Avoid inhalation. Avoid contact with eyes and skin. May cause organ damage from repeated oral and inhalation exposure at high doses.

ECOTOXICITY

Very toxic to fish and aquatic organisms. Avoid contamination of any water source (including drains, sewers, ponds, creeks etc.) with product or empty container. Harmful to soil environment and terrestrial vertebrates. Very toxic to terrestrial invertebrates.

PRECAUTIONS

Keep out of reach of children. Do not eat drink or smoke while using product. Avoid skin and eye contact and inhalation of smoke. Wash hands and exposed skin before meals and after work.
