0800 ENSYSTEX (0800 367 978)

Approved pursuant to the HSNO Act 1996, Approval Code: HSR100599
MPI Approved Type B (All animal product except dairy)

HSNO Classifications: 6.5B, 9.4C

TOXICITY

Harmful - may cause sensitisation from prolonged skin contact.

ECOTOXICITY

Harmful to terrestrial invertebrates.

PRECAUTIONS

Keep out of reach of children. Avoid contact with skin and eyes. When using, wear goggles and waterproof gloves. Wash hands and exposed skin before meals and after work.

FIRST AID

If swallowed, do NOT induce vomiting but contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If in eyes wash out with running water for at least 15 minutes. If on hair or skin wash with plenty of soap and water.

ENSYSTEX[®]

DIRECTIONS FOR USE:

RESTRAINTS

- Do NOT use in areas accessible to children.
- Do NOT apply to a wet ground surface or to areas that are washed or irrigated, or if rain is likely within 24 hours of application.
- Do NOT use with other insecticides on or near where they have been applied.
- Do NOT place baits in locations which are accessible to domestic animals, livestock or birds.
- HYMENOPTHOR ULTRA Granular Insect Bait shall not be applied onto or into water.

SITUATION	PEST	RATE	CRITICAL COMMENTS
Outdoor perimeter treatment around structures	Ants	1-2.5 g per linear metre	Sprinkle evenly in a 30 to 60 cm band adjacent to the foundations of the building, along driveways, paths, gardens and around trees. For best results apply when ants are most active, usually late afternoon. Follow-up visits should be made to inspect bait placement. Reapply as necessary.
Broadcast application		1 g per m ²	Apply by shaking uniformly over lawns, gardens and other non-crop areas.
Ant mounds		20 g per colony or mound (approx 2 tablespoons)	Sprinkle around each mound (Do NOT use food utensils). For best results do not apply directly to the mound, nor disturb the ants or mound.
Indoor use	Ants and cockroaches	5-10 g per crack or crevice (approx 1 tablespoon) 1-2.5 g per m ²	Do NOT use in areas accessible to children. Indoor application is limited to inaccessible areas such as cracks and crevices, wall voids and crawl spaces in commercial and residential areas. Apply by shaking into cracks or crevices (Do NOT use food utensils). Remove any loose or excess granules. Apply to crawl spaces inaccessible to children and pets.
Outdoor use	Cockroaches	1-5 g per linear metre	Apply to external areas where large cockroach species are known to frequent e.g. around grease traps, manholes, sewers, etc.

GENERAL INSTRUCTIONS

HYMENOPTHOR ULTRA Granular Insect Bait is suitable for controlling crawling insects in indoor and outdoor situations. The granules contain a special blend of foods plus fipronil insecticide. Worker ants carry the granules back to the nest. Expect to see fewer ants within one week. For indoor use, insect bait stations may be used.

APPLICATION

For outdoor broadcast applications use a hand held rotary spreader or similar device which will give uniform distribution. For smaller areas sprinkle uniformly by hand covered with rubber gloves.

For indoor applications use a suitable dust or granule applicator.

EQUIPMENT CLEANING

Equipment should be thoroughly cleaned before use and after use granules should be returned to the original sealed labelled container.

SPILLAGE

If product is spilt, collect or spread granules to discourage eating.

STORAGE AND DISPOSAL

Keep out of reach of children. Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight.

Do not dispose of undiluted chemicals on site. Dispose of used containers at a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots.

Empty containers and product should not be burnt.

SAFETY DATA SHEET:

Additional information is listed in the Safety Data Sheet available at www.Ensystex.co.nz.

WARRANTY

Ensystex warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with Directions for Use under normal conditions of use. No warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of the product contrary to label instructions or under abnormal conditions.
