Anti-bird protection system adaptable to the widest range of environmental conditions.

Sparrows

Starlings

Pigeons

Gulls

Seagulls

• Action

Square-mesh anti-bird nets are designed to protect large spaces.

• Main advantages

- Long-lasting
- Ecological
- Inconspicuous
- Cost effective

• Protection

- Sloping roofs
- Ceilings
- Inner courtyards
- Bell towers
- Balconies
- Trees
- Car-park interiors
- Metal structures or industrial premises

• Description

High-density polyethylene square-mesh nets, knotted and mass UV-stabilised.

Chemically inert, rot-proof, highly-resistant to different weather conditions and a very wide range of chemicals.

Resistant from 430 kg/m², these nets are not anti-fall nets, which have different specifications.

• Fitting

First make a sketch to determine the number of eyes and turnbuckles needed.

Fix eyes every 50 cm around the perimeter and turnbuckles at corners.

Bring the stainless-steel wire rope through the eyes and tighten it with the turnbuckles

(1 eye every 10 meters).

Fix the wire rope to the turnbuckles with u-bolts.

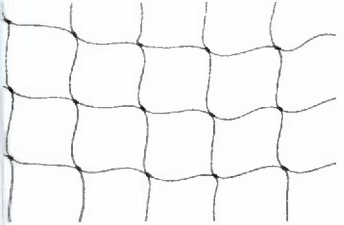

Attach each mesh of the net to the wire rope with a ring (stainless-steel staple fastened with the net stapler).

WIRE ROPE FOR NETS

Ref.	Description	Packaging
NET007	Câble 2 mm 7/7 wire rope	100 m

A 2 mm 7/7 wire rope is the standard support for anti-bird nets. It combines resistance and flexibility. Made of stainless-steel.

ROPE

Ref.	Description	Packaging
NET115	3 mm rope	1 kg = 250 metre

Black polyethylene rope for nets.

NET STAPLER

Ref.	Description	Packaging
NET009	Net stapler	Unit
NET011	zinc-coated staples	2500
NET012	stainless-steel staples	2500

This is the standard tool used to fasten the nets to the wire rope.

Designed for quick use with one hand, it is essential to attach each mesh to the wire rope.

The ring staples are packed in boxes of 2500 pieces.

TURNBUCKLE

Ref.	Description	Packaging
NET016	M6 stainless-steel turnbuckle	Unit

Eye-and-hook turnbuckles are used to tighten the wire rope.

U-BOLT

Ref.	Description	Packaging
NET018	stainless-steel U-bolt	10

U-bolts are available in stainless-steel. They are used to join lengths of wire rope.

CRIMP

Ref.	Description	Packaging
NET017	Crimp	10

EYE BOLTS

Ref.	Description	Packaging
NET028	M8 Eye bolts	10

Eye bolts are the standard attachment of net's corners.

They can also be used to support the transverse cables of large nets.

ZINC SCREW EYES AND PLUGS

Ref.	Description	Packaging
NET040	40 mm zinc screw eye	100
NET132	Plastic plugs (6 mm)	100

These supports can be directly screwed into wood or into masonry with a nylon plug.
