IMPORTANT SAFEGUARDS

When using electrical appliance basic safety precautions Should always be followed including the following.

1. Read all instructions.
2. To protect against risk of electrical shock do not put housing in water or other liquid.
3. Close supervision is necessary when any appliance is used by or near children.
4. Unplug from outlet when not in use before putting on or taking off parts and before cleaning.
5. Avoid contacting moving parts.
6. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or is dropped or damaged in any manner. Return appliance to the nearest authorized service facility for examination repair or electrical or mechanical adjustment.
7. The use of attachments not recommended or sold by the manufacturer may cause electrical shock or injury.
8. Do not use outdoors.
9. Do not let cord hung over edge of table or counter.
10. Do not let cord contact hot surface including the stove.
11. Keep hands and utensils out of container while blending to reduce the risk of severe injury to persons or damage to the blender. A scraper may be used but must be used only when the blender is not running.
12. Blades are sharp handle carefully.
13. Do not blend hot liquids.
14. The blender is not to be operated with empty blending unit (i.e. without solid or liquid foodstuff)
15. Do not operate the blender more than 180 second with any loading.
16. If the supply cord is damaged it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.

17. To reduce the risk of injury never place the blade on the motor base without jar properly attached. Always completely assemble the blade and cup before placing on the motor base.

18. Always operate blender with cup in place.

19. This blender is turned, you have to hold the pulse switch. By turning the cup on the motor base.
