PARTS (E1)

PARTS (E2)

PARTS (E3)

PARTS (D1)

PARTS (D2)

PARTS (D3)

PARTS (A): Base feet (all the same)
PARTS (B): Lower leg (all the same)
PART (C1): Upper center leg
PART (C2): Upper left leg
PART (C3): Upper right leg
PARTS (D1): Lower platform
PART (D2): Top platform
PART (D3): Center step
PARTS (E1): Lower platform pad
PART (E2): Top platform pad
PART (E3): Center step pad
PARTS (F): Screws

STEP 1

Attach base feet to underside of lower legs.

Use screw driver to fasten parts together with a screw.

Make sure the screw heads sit flush/inside the feet.

STEP 2

Turn lower legs around so that the base feet sit flat on the floor.

Attach upper legs to the base legs by sliding parts together from the side. Make sure sides are flush.

STEP 3

Position legs in a triangular shape with the solid leg (center leg) to the back, (leg with the slot facing outwards) to the left, and (leg with the slot facing inwards) to the right.

STEP 4

Slide legs into lower platform (D1) slots and then slide platform down so that the leg tabs sit inside the platform slots.

This can be done one leg at a time. Slide legs by holding upper and lower leg parts together.

STEP 5

Once all legs are attached to lower platform, attach top platform by sliding part slots into upper leg tabs.

STEP 6

Slide center step into upper leg (C2 & C3) slots.

Slide the part from the left leg (C2) position and ensure slot angles are aligned.

STEP 7

Once all parts are securely in place, use a screw driver to attach platforms and step to the legs.

STEP 8

Place pads on platforms and step.

Peel off the adhesive tape protective cover on the underside of the pads to stick.

TA-DA!
