Laser Projector

## A New Type of Screenless TV Experience — Only from Epson.

**Stunning Picture Quality up to 120"** — Delivers an immersive, bright viewing experience for TV shows, sporting events, gaming and movies by accepting content up to 4K — for an amazing Full-HD HDR picture<sup>1</sup>.

**Sound by Yamaha** — Custom-designed audiophile 2.1 speaker system offers a powerful and emotional performance that rivals soundbars; connect via Bluetooth<sup>®</sup> to use as standalone speaker.

**Built-In Android TV<sup>2</sup>** — Latest Android TV interface with a simple-to-use remote — including voice search with built-in Google Assistant™. Watch all your favorite streaming channels including Hulu, HBO, Disney+, YouTube™ and more<sup>3</sup>. Even stream live TV with apps like YouTube TV™<sup>3</sup>.

**Ultra Short-Throw Laser Array Technology** — Unique multi-array laser diode technology produces an exceptional level of brightness while significantly enhancing the black density.

**Elegant Design** — Designed with simplicity in mind, the Epson EpiqVision Ultra LS300 Streaming Laser Projector has a clean and modern aesthetic to beautifully fit within any décor.

**True 3-Chip Projector Design** — Advanced 3LCD technology displays 100% of the RGB color signal for every frame. This allows for outstanding color accuracy while maintaining excellent color brightness, without any distracting “rainbowing” or “color brightness” issues seen with other projection technologies.

**Chromecast™ Built-In** — Wirelessly cast your favorite content directly from your smart phone, tablet, or computer — including from popular Android™ and Apple<sup>®</sup> devices<sup>4</sup>.
