# Our Essence

trra® is synonymous with intimacy and elegance. A brand defined by the sobriety in the dialogue of its forms and the alchemy of its materials. Fresh and full of life, it combines wood, stone and iron, materials that root us to the earth, manufactured by Mexican craftsmen, with indisputable and incomparable quality.

trra® is your accomplice. Intimate in your space and in its design, carefully devised for its perfect functionality. A brand that will make you fall in love with the details of every grain and the inventiveness of those who design and work on it.

Lienzo

trra® tops itself this year, offering a limited and select range of furniture fully conceived for those who demand innovative and perfectly crafted pieces always. *More than furniture, a striking declaration of class.*

Our furniture is created under complex and natural schemes at once, with lines that blend cultures and concepts. Design styles that play with techniques only found in Mexico, at the height of any expression of contemporary design. Truly *transcendental and precise* lines, that allow those who enjoy them to coexist with virtuous pieces at all times, 100% handmade in Mexico to the height of any taste and requirement.

Come play with us in this celebration of furniture design, combining our pieces to materialize your project or ideal home with our different lines. Lines that make us feel very proud of being Made in Mexico, Made in trra®.

# Superlative in style, natural in workmanship

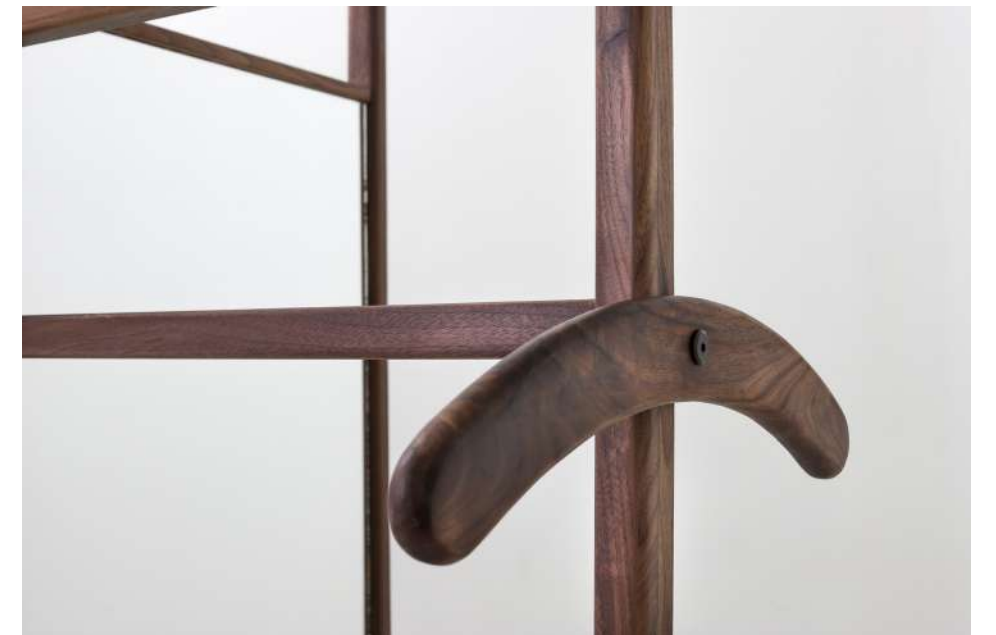

---

Our most emblematic pieces harmoniously take shape in any environment, not just by fitting, *but also by elevating the aesthetic stature of wherever they are placed.* Reclaiming different marbles and solid woods in walnut or white oak, paired with natural leathers and finished with brass accents and hidden runners, our pieces seek the highest communion of quality and design, separating us from the common places in Mexico, by perfecting finishes in contours and curves, *while being elegant and natural at the same time.*

We create pieces that speak of their process by themselves. Furniture that, in the most static state possible, makes a blaring statement of its Mexican origin.

# HP MKT

HIGH POINT MARKET

# MESCATO DINING ROOM

The Mescato Dining Room is a piece that makes us proud in every detail. It was born from the fusion of two of our star lines, which remain in this new 2020 collection. With straight lines and neutral colors, we manage to transmit tranquility and relaxation to the lovers of pieces that evoke nature.

The Mescato Dining Room is made from the finest materials, available in our range of woods to choose from, with details in a selection of natural marble stones.

Charme console, standard size, wood to choose, leather details.

**Interview with  
Our Designer.  
New 2020 lines  
*inspiration*  
Fabiola Ávalos Tovar  
trra® Designer.**

terra® we are in search of experimentation and innovation. Our Hygge Line was born in 2020 with Italian design as a protagonist. Inspired by an important concept of design known as “Bel Design”; which was born in the 50’s. It is an aesthetic in which the Italian artisan tradition meets technology. Although the reign of Bel Design ended in the 1970s to give way to the concept of Design Made in Italy, many of its ideas are still fundamental. “The great Italian designers are truly fascinated by new materials.” At the moment of being perceived by our eyes or ears (the Made in Italy brand), almost automatically, it acquires a connotation of lifestyle, great quality, avant-garde in its design and in the materials used. The organic trend continues to embrace spaces since it has displaced minimalism as the dominant current. Terracotta or earthy colors are very present in different types of furniture and certainly in architectural spaces.

For centuries Italy has been the cradle of art and elegant architecture. Italian design has been, for many, the synonym of beauty and style. Italian style can bring to mind deep shades of wine and rich earth tones. However, pale and creamy hues convey a sense of freshness that will make any room seem worthy of a palace. The elegance of neutral hues can be enhanced with pops of intensity in shades such as emerald green to create accents that add a sense of trendiness.

“Balance between  
spacious  
and cozy feeling “

Also emphasizing the new materials included such as anodized aluminum for fittings, hardware with rare color options (orange and brown), tempered ceramic, new shades of fabric and leather were incorporated in addition to our range of options. Keeping with the Italian design and maintaining that touch of elegance that characterizes us, with classic shades and neutral colors to achieve extremely elegant environments. Considering all the details and merging subtle and round geometric shapes with very straight bevels. Our Mescato line is born from the fusion of two of our star lines, they remain in this new 2020 collection with their best features. In this delicate and handmade line, you can appreciate unique combinations of simple materials and beautiful details in their details. Mescato, the result of the combination of words from Italian origin, as well as the inspiration for its creation, once again creating unique pieces for people with a legacy.

Our third line, Sofere 2020, but not less important, shows beautiful attributes, but in a more subtle way. It goes hand in hand with the artisan process, but at the same time highlights the elegance of its details created with innovative materials and new technologies. Creating unique and transcendent pieces of Italian inspiration, crafted by Mexican hands to highlight the beauty of your home. Materials:

- A combination of walnut with fabric, leather, metal, smoked glass, stone veneer, marble and porcelain tile.
- Combination of white oak and natural honey or camel leather.
- Handles with anodized aluminum and leather accents.
- Walnut with bevels and rounded edges.

# Our Lines Glossary

Our furniture is created under complex and natural schemes at the same time, with lines that merge cultures and concepts. Design styles that play with techniques that are unique in Mexico, at the height of any expression of contemporary design. Truly transcendental and precise lines, that offer to those who enjoy them, the possibility of living at all times with virtuous pieces 100% handcrafted in Mexico and keeping up to any taste and demand.

Join us in this celebration of furniture design, combining our pieces to materialize your project or ideal home through our different lines. Lines that make us feel very proud of being Made in Mexico, Made in trra®.

Hygge  
Mescato  
Soferre  
Vilna  
Charme  
Lienzo

## Hygge

---

Our premium line, warm and sophisticated. Created with unique combinations of natural wood and the finest materials, pieces cared for to the last detail that enhance the beauty of your home. Created with a touch of Italian inspiration, crafted by Mexican hands, ideal for transcendent and sophisticated spaces.

## Sofere

---

Our third, but not less important, Sofere 2020 line shows beautiful attributes, but in a more subtle way. It goes hand in hand with the artisan process, but at the same time highlights the elegance of its details created with innovative materials and new technologies. Creating unique and transcendent pieces of Italian inspiration, crafted by Mexican hands to highlight the beauty of your home.

## Charme

---

Seeking to manifest an esthetic of the highest level and with extremely careful workmanship, we set out to create pieces with a status that reflected what this line sought to achieve: a series of renowned classic pieces, with their own details in terms of manufacture and finishes. Precise cuts, solid wood rounded corners, natural leather handles and rivets specially designed for it. The ultimate expression of sobriety and impeccable handling of material resources by trra®

## Lienzo

---

Inspired by the trends and the return to Art Deco interiors, we designed a line that would represent the opulence of that time grounded in ours. Lienzo, thus combines walnut and metal with gold and black finishes. We add touches of black and marble interiors in a fascinating contrast. The general lines of the furniture are long and geometric, bevels. We complement the collection with velvet chairs to evoke a feel of intimacy at the touch of each piece.

## Mescato

---

It was born from the fusion of two of our star lines, pieces that remain in this new 2020 collection. With straight lines and neutral colors, it conveys tranquility and relaxation as well as sophisticated and handcrafted details. The result of the fusion of words of Italian origin, as well as the inspiration for its creation achieving a balance between spaciousness and coziness.

## Vilna

---

Born under inspiration of the Japandi trend, where Scandinavian and Japanese design styles merge. We added elements exclusively designed for this line, complementing the minimalism of its inspiration with the esthetic weight of brass fittings and hand placed natural leather that covers surfaces and wraps around the wood blending into it. For this line, our natural wood is handcrafted to the highest standard, achieving the utmost care in finishes, accessories and sensations of natural materials. We like to consider it a tribute to wood and to the work our collaborators put into it.
