

HIGDON OUTDOORS

How to identify if your battery has been recalled.

Tool Needed: Phillips Head Screwdriver

INSTRUCTIONS FOR: **CRAZY KICKER XS**

Item 53012

1. Release metal latch between decoy body and floating base
2. Lift decoy body to reveal rubber battery compartment seal
3. Using a phillips head screwdriver, remove two screws securing rubber battery compartment seal
4. Peel back rubbery battery compartment seal
5. Remove battery and check the label for make and model information. If the **TOP** line on the battery sticker reads “**Sun Li-Ion Battery**,” it ***IS*** part of the recall. If your battery says “Sun Li-Ion battery” on the top line, your next step is to complete our recall form at: www.higdonoutdoors.com/recall

Please Note: ANYTHING other than these exact words on the top line means your battery is **NOT** part of the recall.
