

HIGDON OUTDOORS

How to identify if your battery has been recalled.

Tool Needed: Phillips Head Screwdriver

INSTRUCTIONS FOR:

PULSATOR XS

Items 50033, 50044, 50534, 50053, 50054, 50734, 54034

1. Pinch tabs and remove bilge pump
2. Using a phillips head screw driver, remove four screws, freeing the bilge pump assembly.
3. Remove waterproof battery box
4. Release tabs to open battery box and remove battery.
5. Remove battery and check the label for make and model information. If the **TOP** line on the battery sticker reads “**Sun Li-Ion Battery**,” it ***IS*** part of the recall. If your battery says “Sun Li-Ion battery” on the top line, your next step is to complete our recall form at: www.higdonoutdoors.com/recall

Please Note: ANYTHING other than these exact words on the top line means your battery is **NOT** part of the recall.
