

Featuring a pedal-free design, this ride-on is operated without the use of batteries and foot pedalling, but with the simple swivel of the wheel.

Model: 8821R

Ride-on Swing Car

Features

- Straightforward to use, your child just has to tilt the wheel to the slight left and then the slight right, again and again, to enjoy the ride
- Supervise with ease of mind because the ride-on travels at a slow and steady pace for safe expeditions
- The elimination of batteries and foot pedalling provides a quiet noise level
- A smooth and flat surface is all that is required to get this swing car going
- Your child will joyride in full confidence with our heavy duty wheels and stable construction
- With three vibrant colours to choose from, including electric blue with orange trim, vivid red with black trim, or slime green with purple trim, there's a ride-on to fulfil any child's wish
