

Shred through high mountains and run through deep waters– this powerful Remote Control Amphibious Car is ready and set to let you go on your next expedition, no matter where it takes you.

Model: AC220B

Remote Control Amphibious Car

Features

- Destroy all boundaries with a country-crossing truck that can race other Remote Control Amphibious Cars at 9 km/h up to 30 metres in RC distance
- Its sturdy alloy shell, powerful shocks and advanced manufacturing ensures your mini-truck is ready to roll across rock, sand, dirt, snow, ice, grass, gravel, mud and water landscapes
- Our 1:14 scale amphibious car has a full range of motion – with a multi-directional movement capacity that lets you roll back and forward, and left and right towards your next destination
- Choose from a sleek black or vibrant red colour to suit your travels, with a rechargeable battery that can keep you running up to 20 minutes at a time
