

This Large Multifunctional Air Fryer gives you the tools to cook your way to a healthier life – offering a low-fat, low-calorie, fast-cooking alternative that does not sacrifice taste or quality.

Model: AF1000B

Large Multifunctional Air Fryer

Features

- Cutting-edge 'turbo air' technology cooks your food with minimum oil, while still providing maximum taste
- Simply add your ingredients into its huge 10 litre capacity and wait as the air fryer circulates 'superheated' air up to 230 degrees Celsius
- Watch as your food grills, roasts, fries or bakes its way to perfection behind our secure, glass viewing window
- Separate temperature and time controls
- Accessories included: baking cage, rack, tongs and rotisserie
