

This unique and savvy Bluetooth music system both lets you enjoy classics the way they were meant to be played, as well as introduce them to a new format that allows you to take your music on-the-go, starting with the tuning knob and volume knob controls.

Model: CD114BL

Home Entertainment System

Features

- Let this large LCD help guide you through your history, one mode and one tune at a time
- When it's time to sit back and simply enjoy your tunes, enjoy the choice of Bluetooth, aux-in, USB, SD/MMC, CD, cassette tape, 3-speed turntable with an included 45RPM adapter, and AM/FM radio playback
- Enjoy the convenient remote control for Bluetooth, CD, AM/FM radio, USB and SD/MMC playback modes, as you enjoy the nostalgia of your favourite music
- It's sleek black or brown frame features wooden speaker boxes, housing its powerful twin speakers totalling at 30 watts, making this universal Home Entertainment System the perfect addition to your living room
