

This Electric Burr Coffee Grinder features a patented consistent grinding system with 95% consistency rating, as well as a patented anti-splash of coffee powders during the grinding process.

Model: CG112

Electric Burr Coffee Grinder

Features

- Enjoy from 1-10 cups of ground coffee per use with a full selection of 31 grinding settings ranging from highly coarse all the way to Turkish fine
- This easy-to-use coffee grinder has simple digital touch controls and a built-in timer
- The low grinding speed reduces both static and heat while running at low noise operation levels
- With 165 watts of motor power to grind efficiently and consistently with added overheat protection
- The stainless-steel conical burr can be easily be removed and cleaned with the included brush
- With a whole bean top container capacity of 275 grams and a ground coffee bottom container capacity of 100 grams

Specifications

- **Features:** Electric Burr Coffee Grinder, patented consistent grinding system with 95% consistency rating, patented anti-splash of coffee powders during the grinding process, makes 1-10 cups of ground coffee per use, 31 grinding settings ranging from highly coarse all the way to Turkish fine, digital touch controls, built-in timer, easy to use, low grinding speed to reduce static and heat, low noise operation levels, stainless-steel conical burr, overheat protection
- **Colour:** Black + Silver
- **Whole Bean Top Container Capacity:** 275g
- **Ground Coffee Bottom Container Capacity:** 100g
- **Power:** 165W
- **Accessory Included:** Cleaning brush
- **Measurements:** 18.5cm x 11.8cm x 31.5cm
- **Weight:** 1.7kgs
