

Hosting a sleek, low-profile design and powerful 10 watts quick-charging power, this 2-in-1 alarm clock will conveniently charge up your compatible smartphone as soon as you lay your phone face-up on top of the clock.

Model: CRW30

Quick Wireless Charging Bluetooth Alarm Clock

Features

- Featuring an FM radio, this smart alarm clock will scan and store 20 FM stations
- Enjoy a long 10 metre distance of Bluetooth range and AUX-in compatibility, for many choices of audio playback
- The convenient USB port on the back of the alarm clock can charge all devices, so those without a wireless charging compatible smartphone don't have to miss out
- Enjoy a large 2-centimetre number clock display in a charming, white glow colour, in either twelve hour or twenty four hour formats
- The display screen also shows the day of the week once set, so you will never miss a beat
- Featuring a dual alarm system, both alarms come with a pre-set alarm schedule selection of running on Monday-Friday, Saturday and Sunday, or all seven days long
