

Sear meats, simmer curries, sauté veggies, scramble eggs, bake a casserole, fry chicken, all in one pan... the options are endless with this banquet-size 9.1 litre capacity Copper Electric Fry Pan.

Model: EFP140

Copper Electric Fry Pan

Features

- The die-cast aluminium housing provides optimum heat retention while the PTFE-free and PFOA-free 100% non-stick polished copper coating allows for easy cooking, stirring and serving of food
- Designed to heat up quickly and evenly, your meals will cook to perfection with even temperature distribution
- Enjoy 5 temperature level adjustments, up to 240°C, through a simple control dial
- The cool-to-touch built-in handles provide convenience for moving around the benchtop and for safe cleaning
- The tempered glass lid seals in the flavours and moisture and also has a cool-to-touch knob
