

Simmer, bake and fry with ease – cook with the Portable Oven for your next and tastiest home-cooked meal, featuring a total of 1700 watts.

## Model: EO425R

### Portable Oven with Rotisserie

#### Features

- Huge 34 litre capacity
- Secure a chicken in the rotisserie and enjoy a succulent roast with the whole family
- Three heating selectors– hot plates, oven heating program and oven temperature
- Oven temperature range of 50° – 250°C
- Our portable oven is ready-packed with a chrome wire rack, enamel baking pan and tray handle
- Cook your meals faster than a conventional oven – with far less space to clean
- Enjoy the convenience of a large and small hot plate for simple stove-top successes, then cook the main course below inside the oven
- The safety switch prevents any overheating and keeps your family and home safe by only operating either the oven or hotplate per use– never the both at the same time
