

This Basic Food Dehydrator allows you to prepare and dehydrate a variety of foods with just two simple touch buttons, so you can enjoy the ease of food dehydrating at home.

## Model: FD1218

### Basic Food Dehydrator

#### Features

- Perfect for food dehydrating beginners, this 'converge-flow' drying system eliminates tray rotation, while ensuring the heated air is circulated through all compartments for consistent, even drying across all levels
- Experience anything from delicious banana chips, all-natural fruit roll-ups and authentic beef jerky, with our dehydrator's standard 5-tray layering
- This food dehydrator can stack up to ten tray levels, perfect for making larger portion dehydrated snacks
- Additional food dehydrator trays are available for purchase
- The opaque, 'vita-save' exterior will assist in blocking excess light from entry into the unit, preventing the destruction of the food's all-important nutrient content
