

Convenience, reliability and easily matches the room decor – all with this straightforward 1L Stainless Steel Cordless Kettle.

Model: K100

1L Stainless Steel Cordless Kettle

Features

- This electric-powered kettle offers a cordless kettle structure with a cool-touch handle and dual water level viewing windows
- The 1 litre capacity and automatic switch-off function ensures the kettle is ready to fuel countless coffee rounds
- Enjoy 360-degrees of base rotation, protection from overheating and an intelligent, concealed stainless steel heating element
- The easy one-button lid release and removable built-in filter make for easy filling and maintenance of the electric kettle
- Effortlessly control the kettle by pressing down on the power lever which illuminates a blue LED to indicate the kettle is heating up the water
