

Easily install an energy-efficient way to brighten your guest's paths when you need it, with 'down-time' in the quieter hours.

Model: SL8

Solar Motion Sensor Light

Features

- Your lights allow for 110 degrees of motion-sensing – offering secure, full vision of anyone approaching your home, as well as convenient, environmentally friendly lighting – for when you're entertaining
- Each 70-lumen white light offers brilliant radiance, with a huge five metres of distance
- This super-bright, super-powered, Solar Motion Sensor Light is fuelled by an entirely natural, pure source – our own sun
- Fully-rechargeable, solar-powered batteries
