

CASA AMALFI

MADE IN ITALY

LUXURY LIFESTYLE COLLECTION

CASA AMALFI

Casa Amalfi is a Southern Italian lifestyle and well-being brand which designs, produces and distributes natural handmade soap, candles, perfumes and homewares. Our products capture the scents, colours, exuberance and richness of the Amalfi Coast. We take great pride in partnering with artisanal factories dotted along the coastline who make our products by hand skills that have been passed down over generations. Every element in the process of our hand crafted products is aimed to create a wonderful sensory experience; whether sitting under the shades of the lemon trees in Sorrento or breathing in the salty air of the Blue Grotto.

Having spent long summers soaking up the pure natural beauty of the Amalfi Coast, founders Ivan and Simonetta wanted to create a brand that reinterpreted the idea of luxury. For them the luxuries of the Amalfi Coast were not only the yachts and grand villas, but the sheer beauty of the nature, the healthy lifestyle of the locals and their connection to the land. Following the pandemic of 2020, the concept of luxury has been redefined to be more about well being. Our health, our hygiene and the change in priorities of lifestyle have all become contributing factors in the creation of Casa Amalfi.

All cosmetic products are formulated with certified natural ingredients, 100% vegan and animal cruelty free. Our soaps adhere to the process of cold saponification and our formula contains environmentally friendly RSPO.

WHO WE ARE

After living in Sydney Australian for over two decades running their own Italian fashion company, Ivan and Simonetta returned to their hometown of Naples in 2019 at the beginning of the pandemic.

It was in those moments when they could escape to the beauty of the Amalfi Coast that the Casa Amalfi brand was imagined and through hard work and vision, was finally realised.

Casa Amalfi has decided to launch as their first product a line of artisanal soaps, enriched with shea butter and jojoba oil. Each soap has cleansing properties and leaves the skin feeling super hydrated.

Furthermore, our soaps are:

MAIOLICA TILES

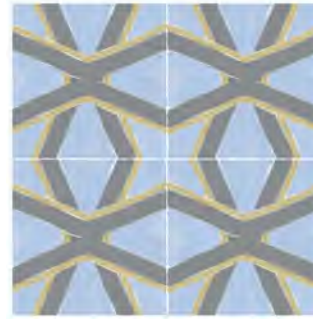

What distinguishes maiolica tiles is the meticulous craftsmanship and attention to detail put into each piece. Artisans skillfully hand-paint elaborate designs onto a clay base, using vibrant colors and intricate patterns.

The tiles are then fired and glazed, resulting in a glossy finish that enhances the richness of the colors and protects the artwork from wear and tear.

Maiolica tiles offer an incredible range of design possibilities. From geometric patterns and floral motifs to scenes from mythology or everyday life, each tile tells a unique story.

At Casa Amalfi, we've used these intricate, colourful tiles to adorn our beautiful, eco friendly, recycled packaging for the 11 locations that our soaps represent.

With their vibrant colors, intricate patterns, and enduring beauty, our printed maiolica tiles have transformed our packaging into works of art.
