2023 Collectible of the Year

The 2023 Collectible of the Year marks 75 years since the original Zippo Car first took to the highways and captured the hearts of onlookers across America.

Inspired by a parade of “product-mobiles,” Zippo founder George G. Blaisdell had a 1947 Chrysler Saratoga completely overhauled into a pair of larger-than-life Zippo windproof lighters. The spectacular sensation would go on to tour the contiguous 48 states, dazzling paraders and fair attendants wherever it went.

This Armor® High Polish Black Collectible depicts the iconic Zippo Car in all its glory using our Photo Image 360° process, which extends the design around all sides of the piece. Laser Two-Tone is used to reveal the Zippo flame and 75th anniversary icon in luxurious brass tones, while the car’s chimney is illuminated by a dazzling crystal, chosen specially for your region: Fire Opal for Asia Pacific; Black Diamond for Europe, the Middle East and Africa; and Brandywine for the Americas. Finally, the gold-plated insert is engraved with a repeating Zippo motif for the very first time, distinguishing this Collectible from all others before it. Each lighter is consecutively numbered, features a Luxury bottom stamp and comes in special collectible packaging.

Production will be limited, so don’t miss the opportunity to offer this region-specific global Collectible!

Vintage Lighters

There's Nothing Old About Zippo Vintage.

The success of Zippo's 50th anniversary commemorative lighter in 1982 was a strong indicator that Zippo customers and collectors were receptive to the addition of more vintage-style lighters to the product line. Zippo Vintage lighters were introduced in 1985, designed after a similar Zippo lighter created in 1937.

Distinctive features:

- Five-barrel hinge joins the lid and the bottom; same as current Zippo lighter.
- Sides of the unit are flat, with rounded corners and edges replicating the 1935 square case.
- Flat bottom and top case with current bottom stamp.

Signature Custom Imprint Methods

Auto Engrave

The crisp, clean jewelry look of auto engraving has become one of the most popular methods of customization. Skilled operators use either rotary engrave or diamond cut method to inscribe an image into the product using creative fill patterns. A dimensional effect can be achieved by using directional fill patterns.
Also known as Rotary Engraving or Computer Engraving.

- Standard imprint charges
- Not available on powder coat and translucent finishes
- Available on sterling silver and solid gold
- Minimum quantity required
- Lid line adjustment may be made
- May require additional lead times

Laser Engrave

Also known as Laser Mark.

- Standard imprint charges
- Minimum quantity required
- Multiple surfaces available
- Shows great contrast

Color Image

State-of-the-art printing method allows Zippo to imprint multiple spot colors or full-color photographic representations. Spot colors can be matched to PMS colors and used for one, two, or three-color simple logos.
Previously known as surface imprint.

- Zippo will accept vector artwork files (Adobe Illustrator) in these formats: .ai, .eps, .pdf (provided entire contents of file are vector). Zippo can also imprint artwork in full color or a photographic representation. Previously known as 4-color process pad print.
- Zippo will accept raster artwork files (Adobe Photoshop) no less than 1.5" wide by 2.25" high with a resolution of 600 DPI (dots per inch). Acceptable formats include .psd, .tif, .eps, .jpg (provided the resolution is high enough). Any file requiring background isolation must have paths or a layered file with transparent background included.

- Standard imprint charges
 - Not available on precious metal finishes
 - Minimum quantity required
 - Special art requirements/high resolution photo required to be reviewed by the Design Center
- All color imprinting will now be run using the color imaging method.
