

Cable Stripper No. 4 - 28 H Green Line

With the Green Line, a very special tool range has been developed. The tools are made of up to 97 % renewable raw materials, which is recyclable and has an excellent life cycle assessment. The Green Line includes various cable strippers, wire strippers, and multifunctional stripping tools. WEICON Stripping Tools enable the precise, fast and safe stripping of all common round cables. The product family of cable strippers includes different types featuring different additional functions and thus meeting the individual application requirements of their users.

The Cable Stripper 4-28 H enables precise, fast and safe stripping of all common round cables with a diameter between 4 and 28 millimetres. The Cable Stripper has a non-slip, multi-component handle with ergonomic shape. Thanks to the set screw on the back of the handle, the cutting depth can be adjusted with an infinitely variable range. This prevents damaging the inner conductor. The cutting blade is integrated in the housing and self-rotating, thus enabling the automatic adjustment from circular to longitudinal cutting. In addition, the 4-28 H has a hook blade, which can be covered with a safety cap. The cap locks the blade safely, which significantly reduces the risk of injury.

Technical Data

Cable type	finely stranded and solid conductors with PVC insulation, round and wet room cables
Application area	outer diameter 4 - 28 mm
Additional use	hook blade with safety cap
Material	fibreglass-reinforced biopolymer such as polyamide
Inner blade	adjustable + replaceable
Approval / certificate	safety tested by TÜV NORD
Accessories	spare blade, art. no. 5010001
Weight	80 g
Length	185 mm
Article number	53054128

Attention:
Tool not to be used on live cables or conductors.
