

Cable Stripper No. S 4 - 28 Green Line

With the Green Line, a very special tool range has been developed. The tools are made of up to 97 % renewable raw materials, which is recyclable and has an excellent life cycle assessment. The Green Line includes various cable strippers, wire strippers, and multifunctional stripping tools. WEICON Stripping Tools enable the precise, fast and safe stripping of all common round cables. The product family of cable strippers includes different types featuring different additional functions and thus meeting the individual application requirements of their users.

The Cable Stripper S 4-28 enables precise, fast and safe stripping of all common round cables with a diameter between 4 and 28 millimetres. Thanks to the adjustment screw in the housing, the cutting depth of the knife can be set with an infinitely variable range. This prevents damaging the inner conductor. The cutting blade is integrated in the housing and self-rotating, thus enabling the automatic adjustment from circular to longitudinal cutting. In addition, a hook blade has been integrated into the S 4-28, which can be retracted into the housing. The blade is lockable in both positions. This leads to a significant reduction in the risk of injury that fixed blades bring with them.

Technical Data

Cable type	PVC insulation
Application area	outer diameter 4 - 28 mm
Additional use	retractable hook blade
Material	fibreglass-reinforced biopolymer such as polyamide
Inner blade	adjustable + replaceable
Approval / certificate	safety tested by TÜV NORD
Accessories	spare blade, art. no. 5010002
Weight	70 g
Length	145 mm
Article number	53055328

Attention:
Tool not to be used on live cables or conductors.
