| <b>Emergency Overview</b>  |                   |  |                  |  |   |                                     |                  |                   |  |
| The product is not expected to present any unusual hazards in proper use.  |                   |  |                  |  |   |                                     |                  |                   |  |
| <b>SKIN CONTACT</b>  |                   | No danger at room temperature.   |                  |  |   |                                     |                  |                   |  |
| <b>EYE CONTACT</b>   |                   | No danger at room temperature.   |                  |  |   |                                     |                  |                   |  |
| <b>INHALATION</b>  |                   | Not likely to occur as the product is not volatile at room temperature.  |                  |  |   |                                     |                  |                   |  |
| <b>INGESTION</b>   |                   | May cause gastrointestinal irritation, nausea, vomiting and diarrhea if ingested in large quantity.  |                  |  |   |                                     |                  |                   |  |
| <b>Potential Health Effects (NFPA Classification)</b>  |                   |  |                  |  |   |                                     |                  |                   |  |
| Fire hazard : 1  |                   | Health Hazard : 0  |                  | Reactivity : 0   |   | Personal Protection : See Section 8 |                  |                   |  |
| 0 = Minimal 1 = Slight hazard 2= Moderate Hazard 3 = Serious Hazard 4 = Severe Hazard  |                   |  |                  |  |   |                                     |                  |                   |  |
| <b>Potential Health Effects (HMIS Rating)</b>  |                   |  |                  |  |   |                                     |                  |                   |  |
| Health : 0   |                   |  | Flammability : 1 |  |   | Reactivity : 0                      |                  |                   |  |
| 0 = Minimal 1 = Slight hazard 2= Moderate Hazard 3 = Serious Hazard 4 = Severe Hazard  |                   |  |                  |  |   |                                     |                  |                   |  |
| <b>SECTION 4 – FIRST AID MEASURES</b>  |                   |  |                  |  |   |                                     |                  |                   |  |
| <b>EYE CONTACT</b>   |                   | Exposure to fumes, vapours or smoke of the thermally degraded product can result in irritation to the eye and direct contact of the molten material will cause eye injury and burns. Should an accident occur, flush eyes with generous amounts of water for at least 15 minutes. <b>Call a physician to attend to the injury.</b>                   |                  |  |   |                                     |                  |                   |  |
| <b>SKIN CONTACT</b>  |                   | Exposure to fumes, vapours or smoke of thermally degraded product can result in irritation to skin and direct contact of the molten material will cause injury and burns. For burns apply running water over the injured area for 15 minutes. Do not attempt to remove any material bonded to skin. <b>Call a physician to attend to the injury.</b> |                  |  |   |                                     |                  |                   |  |
| <b>INHALATION</b>  |                   | Remove individual to a well ventilated area for fresh air and <b>call a physician to attend to the injury.</b>   |                  |  |   |                                     |                  |                   |  |
| <b>INGESTION</b>   |                   | Material is not acutely toxic by ingestion. <b>If material is ingested, do not induce</b>  |                  |  |   |                                     |                  |                   |  |

|  |   |  |                                  |
|--|---|--|----------------------------------|
|  | <b>vomiting. Call a physician.</b>  |  |                                  |
| <b>ADDITIONAL INFO</b>   | None  |  |                                  |
| <b>SECTION 5 – FIRE FIGHTING MEASURES</b>  |   |  |                                  |
| <b>Extinguishing Media</b>   | Treat as an oil fire. Use Foam, Dry Chemical and CO <sub>2</sub> .  |  |                                  |
| <b>Special Fire fighting Procedure</b>   | Keep people away from fire and smoke, Wear full fire fighting turn-out gear and respiratory protection (SCBA).  |  |                                  |
| <b>Unusual Fire and Explosion Hazards</b>  | This product will burn if involved in a fire.   |  |                                  |
| <b>SECTION 6 – ACCIDENTAL RELEASE MEASURES</b>   |   |  |                                  |
| <b>Small Spills</b>  | Not likely to occur in solid format. Sweep and scrap the spill  |  |                                  |
| <b>Large Spills</b>  | Not likely to occur in solid format. May melt if exposed to excessive heat. In that case, let the material solidify and scrap the spill.  |  |                                  |
| <b>SECTION 7 – HANDLING AND STORAGE</b>  |   |  |                                  |
| <b>Handling procedures</b>   | Handle as a fragile material. Wash thoroughly exposed body part after using.  |  |                                  |
| <b>Storage precautions</b>   | Normal precaution should be followed in handling and storage. Store in a dry & cool place. Keep out of strong sunlight. Do not store at temperature : > 50°C / 120°F or near spark or open flame. |  |                                  |
| <b>SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION</b>   |   |  |                                  |
| <b>PERSONAL PROTECTION</b>   |   |  |                                  |
| <b>Respiratory protection</b>  | No special respiratory protection is normally required.   |  |                                  |
| <b>Protective gloves</b>   | Rubber glove to prevent burning with the melted wax.  |  |                                  |
| <b>Eye protection</b>  | Protective goggle to prevent burning by splatter of melted wax.   |  |                                  |
| <b>Clothing</b>  | Standard industrial.  |  |                                  |
| <b>SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES</b>  |   |  |                                  |
| Appearance<br>Various color wax  | Odour<br>None   | Physical state<br>Solid @ 25°C/77°F          | Boiling point<br>N / AV.         |
| Melting point<br>~ 50°C / 122°F  | Specific gravity (H <sub>2</sub> O=1)<br>< 1  | Vapour pressure (mm Hg)<br><0.01 @ 25°C/77°F | Solubility in water<br>Insoluble |
| Solubility in organic solvent<br>Soluble   | Partitioning coefficient<br>N / AV.   | Flash point<br>N / AV.                       | Percent volatiles<br>Nil         |
| <b>SECTION 10 – STABILITY AND REACTIVITY DATA</b>  |   |  |                                  |
| Stability<br>Stable  | Hazardous polymerization<br>Will not occur.   |  |                                  |
| Incompatibility  | Normally unreactive; however avoid contact with strong oxidizing agent (ex. Peroxides, chlorine).   |  |                                  |
| Hazardous decomposition products   | Burning can produce noxious and toxic fumes, and the following combustion products : Oxides of carbon & Other complex chemical.   |  |                                  |
| <b>SECTION 11 – TOXICOLOGICAL INFORMATION</b>  |   |  |                                  |
| Carcinogenicity<br>Not listed, not carcinogenic to date.   | Mutagenicity / Teratogenicity<br>Not listed   |  |                                  |
| Irritancy of Material<br>None known  | Sensitizing Capability<br>None known  |  |                                  |
| Reproductive Effects<br>None known   | Synergistic Materials<br>None known   |  |                                  |
| <b>SECTION 12 – ECOLOGICAL INFORMATION</b>   |   |  |                                  |
| This product is stable in water, and can be mechanically separated from water. The water may be suitable for disposal in a biological waste water treatment plant. Not expected to be acutely toxic to aquatic organism. |   |  |                                  |
| <b>SECTION 13 – DISPOSAL CONSIDERATION</b>   |   |  |                                  |
| Incineration is probably the best mean of disposal. Dispose as industrial waste in accordance with appropriate Federal, State and local regulation.  |   |  |                                  |
| <b>SECTION 14 – TRANSPORT INFORMATION</b>  |   |  |                                  |
