TACTICAL CUSTOM SEAT COVERS

Functionality meets style – Tactical packages our military style M.O.L.L.E. (Modular Lightweight Load-carrying Equipment) system with a completely custom seat cover. The M.O.L.L.E. conveniently fits on the back-side of the seat, creating that extra storage. Combined with our unique six-pouch MOLLE system, you can store your camp gear, fishing gear or other tools. Now you can have the right equipment with you in your vehicle at all times.

EACH ROW INCLUDES 6 POUCHES - ATTACH WHERE YOU NEED

Also compatible with all your M.O.L.L.E. gear

Protects from the hot sun and reduces glare. Fits right in just like from the factory. PERFECT!

ZIG-ZAG STITCH
We use this more difficult stitch that acts as a hinge that allows the material to follow the contours of the dash perfectly.

BLIND STITCH
Our competitors use this easier stitch, which causes the material to lift off the dash - causing poor fit and performance.

COVERKING ADVANTAGE

Coverking's custom car covers are made to protect vehicles from hazardous conditions while ensuring a clean, durable, custom fit.

- Coverking chooses to use fewer, larger pieces of fabric than our competitors to reduce the amount of seams in your cover.
- All outdoor covers are sewn using double needle and overlapped seams, resulting in a durable, leak resistant seam which has a backup stitch if the main stitch fails.

- Coverking developed the widest selection of custom car cover materials, choosing to engineer it's own fabrics instead of relying on "off the shelf" materials.

CUSTOM & UNIVERSAL

A universal cover is designed for the "average car" that is approximately the same size as your car. There won't be any allowances for any unique features on your car. A custom cover is made specifically for your model.

TRUE CUSTOM PATTERNS

Like a fine suit, your cover is made to fit the curves and features of your vehicle. One of Coverking's pattern designers spent time with your model vehicle and used 3D scanners to record every compound curve and detail. That data is then used to create a world-class cover with the fewest seams possible. Custom mirror and antenna pockets are sewn in to allow the cover to rest snugly on your vehicle's exterior.

TRIGUARD™ CUSTOM

GRAY
I98
