

TECHNICAL DATA SHEET

Foamclens

Foaming Surface Cleaner

Foamclens is a water-based foaming cleaner suitable for all interior surfaces. Its foaming action works swiftly, penetrating and loosening all types of contamination.

Foamclens has been formulated from a blend of alcohols, solvents and surfactants which chemically loosen the contamination, enabling the affected area to be wiped clean with ease.

Foamclens quickly removes general grease and grime from surfaces such as vinyl, plastics and upholstery and is therefore ideal for cleaning vehicle head linings, seats, dashboards, door panels, office furniture and carpets.

Physical and Chemical Properties - Information given concerns the major ingredients

Aerosol

Odour: Characteristic

Flash Point < -40°C

Auto Ignition Temperature 410 – 580°C

Flammability Limit Lower 1.8% Upper 9.5%

Directions

1. Remove any excess soiling by carefully wiping.
2. Spray onto selected area.
3. Allow to penetrate for at least 5 minutes
4. Wipe or vacuum away. Reapply where necessary.
