TECHNICAL DATA SHEET

POCKET ROCKET BULK

Moisture Displacer/Light Lubricant

Pocket Rocket Bulk combats the problem of water and steam in all electrical components. **Pocket Rocket Bulk** is a blend of penetrants, moisture displacers, de-watering agents and rust inhibitors, designed to enable the restoration of power quickly safely and efficiently. **Pocket Rocket Bulk** will penetrate water and deposit a moisture barrier, which will help to protect and seal out moisture.

Pocket Rocket Bulk is safe to use on any electrical components such as starters, alternators, electrical motors, switch gear, high and low tension cables. (Electrical circuits should be switched off during application, and until the solvent has evaporated)

Pocket Rocket Bulk may also be used to prevent corrosion of steel, brass, copper or aluminium fittings.

Physical and Chemical Properties

Light amber liquid.

Organic solvent odour.

Relative density 0.801.

Flash Point 70°C (Closed Cup)

Insoluble in water.

Directions

1. Shake container well.
2. Apply to selected area.
3. Allow to penetrate.
4. Wipe off excess with a clean rag

Product availability

5L/25L Bulk
