ELIASHONEY.CA

An established name you can trust, Elias has been bringing 100% pure Canadian honey to family households since 1972. No fillers, syrups, or offshore honey blends. Ever.

Our honeys are harvested from Western Canada's unique, expansive fields of clover blossoms – one of the world's best regions for producing honey. We work closely with our local partners to bring you a top-quality product in liquid, creamed, raw and certified organic options, so you can enjoy a range of everyday honeys, any way you like it.

Meet the full family of Elias household honeys and discover what makes us one of BC's most recognized brands of honey!

ELIAS RAW HONEY

Elias Raw is the real deal! Unfiltered to retain all of its natural, subtle aromatics and health benefits, Elias Raw is thick, rich, sweet and buttery with hints of caramel and a pleasant beeswax aroma.

Our raw honey is creamed so it won't crystallize over time and you can easily enjoy its quality and unique flavour down to the last spoonful.

Available in 500gr glass jars.

ELIAS ORGANIC HONEY

Elias Organic is delicate, versatile and less sweet tasting than some honeys, with a creamy, fluffy cool sensation that melts in your mouth. Raw and creamed to retain all of its subtle flavours, natural aromas and health benefits, it has a delightful texture that won't crystallize over time.

Best of all, our organic honey is Pro-Cert Certified to ensure it's as pure and perfect as possible—just the way nature intended.

Available in 375gr glass jars.

ELIAS LIQUIDS HONEY

Our classic honey – Elias liquid squeeze – is sweet, delicate, fresh, and flowery, like a burst of spring sunshine in a field of green grass and clover blossoms!

Available in 500gr and 1Kg liquid squeeze bottles and 375gr liquid squeeze bear bottles.

ELIAS CREAME HONEY

Whipped to perfection and easy to spread, Elias creamed honey will not crystallize over time so you can easily enjoy it at the breakfast table, spread it on your favourite snack or use as a dip on the go.

Available in 500gr, 1kg tubs and 5kg bulk pails.

eliashoney.ca

A woman wearing a black dress with a white floral pattern is standing in a field of tall, green, and yellow wildflowers. She is reaching out with her right hand towards a flower. In the background, there is a wooden fence and a blurred landscape under a bright sky. The overall scene is peaceful and natural.

PUREPOLLENLOVE

ELIASHONEY.CA

Think all honey tastes alike? Think again! Different blossoms produce wildly different tasting honeys in a range of colours from light gold to amber and dark brown.

At Elias, we offer a truly unique line of gourmet honeys produced from a variety of blossoms, all with their own distinct character and flavours.

These honeys may not necessarily taste the way you think—each jar will offer a surprising range of aromatics and flavours from fruity, floral and herbaceous, to woody and spicy. Sample them all, then get creative with how you enjoy these different varieties!

GOURMET

ALFALFA-CLOVER BLOSSOM

Elias Gourmet Alfalfa-Clover honey is sweet, fresh, herbaceous and light with a subtle citrus and fruit quality, reminiscent of pears and lemon zest!

BLUEBERRY BLOSSOM

Elias Gourmet Blueberry honey is rich and bright with bursts of lemon and berries, reminiscent of a freshly baked blueberry muffin with lemon zest.

RASPBERRY BLOSSOM

Elias Gourmet Raspberry honey is a zesty bright citrusy honey with juicy berry notes and an aroma reminiscent of a faintly scented rose garden.

BLACKBERRY BLOSSOM

Elias Gourmet Blackberry honey is mellow and rich with notes of vanilla, berries and a hint of beeswax.

BUCKWHEAT BLOSSOM

Elias Gourmet Buckwheat honey is hearty and sweet with layers of toffee and molasses flavour, reminiscent of baked goods. It also boasts some added health benefits, so it's as good for you as it tastes!

WILDFLOWER BLOSSOM

Elias Gourmet Wildflower honey is flowery, fresh and buttery smooth with hints of mellow oak, produced in Canada's wild north.

All of our Gourmet honeys are available in 375gr glass jars. Our Alfalfa-Clover honey is also available in 5kg bulk pails.

ELIAHONEY.CA

Introducing Elias Cold Pressed Honey, our healthiest, most complete honey yet!

Using our unique proprietary process, Elias Cold Pressed honey is frozen shortly after harvesting then mechanically filtered and bottled without being subjected to high temperatures, unlike conventional liquid honeys. This results in a much higher number of live active enzymes, pollen and propolis in this supremely raw creamed honey. All of the delicate aromas, flavours and naturally occurring probiotic components are preserved to bring you the most complete honey nature has to offer.

Dip into a jar and harness the full power of a complete, raw honey with Elias Cold Pressed Honey!

COLD PRESSED

CLOVER COLD PRESSED HONEY

Produced in the cold Western prairies of Canada, our Elias Clover Cold Pressed Honey is sweet and fluffy like a jar of nature's frosting.

BUCKWHEAT COLD PRESSED HONEY

This Pacific Northwest honey not only boasts all of the benefits of all of our Elias Cold Pressed Honeys, but Buckwheat honey is also known for its high antioxidant value with health properties that rival Manuka honey.

BLUEBERRY BLOSSOM COLD PRESSED HONEY

From the fields of the Fraser Valley in BC, our Blueberry Blossom Cold Pressed Honey is rich with a lemony zing! This one is delightful as a dip or spread for snacking on the go.

All of our Elias Cold Pressed honeys are available in 375gr glass jars.
