Who we are

Anzy Home is a Ukrainian lifestyle brand of knitted and crocheted home décor which resolves around the principles of social responsibility and sustainability.

The products in the brand's portfolio are handmade from scratch in a well-organized studio in the East of Ukraine.

We create a wide range of products: poufs, rugs, pillows, storage baskets, kids' room decor, newborn Moses baskets and more.

OUR MISSION

Furnish homes around the world with unique high-quality items which are hand-made responsibly and consciously, while creating meaningful job opportunities for Ukrainian women.

**Handmade
in Ukraine**

**Ethically-
made**

Sustainable

**Quality-
centred**

**Women-
owned**

Our commitment

Our commitment is to produce high-quality and durable products and care about the people and the planet.

Social Impact

Our social mission is to support Ukrainian women of different ages and social positions by creating for them meaningful and fairly-paid jobs.

All products are hand-knitted and crocheted using classic craftsmanship techniques passed down through generations, but infused with a modern twist. Some projects are shared with the women working remotely from home, allowing them to earn additional income by doing their beloved crafts.

For the whole brand's history we managed to support over 40 women artisans, who pour their heart and soul into crafting each piece, blending modern aesthetics with the time-honoured traditions of our homeland.

Sustainability

We prioritize sustainable practices, using natural materials, selecting OEKO-TEX Standard 100 certified cotton and recycled cotton for making our products. We promote a circular economy through recycling, upcycling, and product take-back initiatives. Our hand-made techniques are energy-efficient, produce minimal pollutants, and our products emphasize waste reduction and longevity

Conscious design

We merge traditional craftsmanship with modern design, creating durable pieces that remain stylish over time. Our skilled artisans craft each product, offering customization to ensure a personal touch and a balance between timeless and contemporary aesthetics.

Poufs

Anzy Home offers a collection of poufs in different shapes, sizes and colours.

Knitted poufs made of chunky cotton yarn are comfortable pieces of furniture and stylish interior decorations. They work well as a sitting place, footstool or bedside table.

Densely filled with the bean bag filler, the poufs are lightweight, hold their shapes well and possess a sturdy yet comfortable structure to sit on or place something onto. All types of poufs in the collection have removable knitted covers to allow easy washing or cleaning.

A wide variety of designs and colours provide flexibility to select the pouffe which perfectly fits the interior style and colour scheme.

Round poufs

Braided spherical pouffes come in four different design models — Ribs, Classic, Modern and Fusion - which differ in knitting texture and pattern. The idea is to offer a variety of looks to fit all types of modern interiors, from boho to minimalist.

All models are offered in 2 sizes:

M size (measures 40 cm in diameter and 35 cm in heights) can be used as a footstool, lounge sitting place, and is comfortable for a kid sitting.

L size (measures 50 cm in diameter and 45 cm in heights) is large enough as an additional sitting place for an adult or can be used as a bedside table.

Rugs and carpets

Practical, soft, and unique cotton rugs can liven up a room or create an interior accent. We offer both ready solutions for rectangular, round and oval rugs and carpets of various sizes and can create a custom rug for a specific design, pattern and colours. Whichever one you choose, rugs are an essential part of any home - for living rooms, bedrooms, kitchens, dining rooms, children's rooms and other spaces.

Plain rugs

Plain monochrome rugs can help create a sense of definition in any space, whether you're looking to add a touch of colour to the interior or simply want to rest your feet on something ridiculously soft.

Striped rugs

Striped rugs are great for adding contemporary styling and a splash of colour to your floor area.

Dozens of colour options can be combined in thousands of designs. We can play with the stripes' thickness and layout to create a bold or easy look and make a proper accent.

Patterned rugs

Geometric pattern, colour blocking, tiny lines or abstract shapes - any design can be implemented in the crocheted rugs and carpets.

We have our own design solutions and can create a custom design. The project starts with the 2d modelling to be sure the carpet will look just as you expect.

Storage solutions

Knitted and crocheted storage baskets play both functional and decorative roles. We've got storage ideas for linen, clothes, toys, cosmetics, and kitchen and bathroom solutions. The beauty of our storage collection is that one can choose the shape, colour, size and design. Our baskets are both beautiful and practical, and worthy to make a feature of them in the interior.

Chunky knit blankets and throws

Designed to create the Hygge atmosphere at home and offer a warm hug either in cold winter or in summer night when you got the air conditioner on full blast.

The arm-knitted chunky throw is super soft, cosy and stylish, featuring a delicate texture.

Made of yarn combining wool and acrylic, the blanket is both warm and durable. In contrast to the bulky merino wool, we selected the material which gives a similar chunky look, but is less vulnerable to the creation of little pills due to friction.

Sizes:

The blankets are manufactured in several standard sizes, from small options suitable for newborn babies up to large bed covers.

Vyshyvanka — decor in Ethnic Ukrainian style

Crocheted wall art and storage basket in Ukrainian Vyshyvanka style were design and developed in May 2022. Traditionally, Vyshyvanka clothes are believed to protect the person wearing them and to tell a story. Similarly, our decor elements are believed to protect a home where they are placed. The patterns have their own meanings, which are highly important today not only for the Ukrainian nation, but for the whole world.

Newborn collection

The creation of Anzy Home newborn collection was inspired by the most significant and aflutter period in a women's life - pregnancy. Anna, the founder of Anzy Home, crocheted the first Moses Basket while expecting her firstborne in 2019. Since then the collection evolved and updated according to the actual trends, emerging functionalities and creative designs.

In a newborn collection we offer a complete set of the components needed for smooth and beautiful baby sleep and care: Moses baskets, wooden rocking stands, changing baskets, organic mattress pads, baby loungers, fitted sheets, covers, diaper and baby stuff storage.

Every piece is made by hands using high-quality eco-friendly and baby-safe materials. We use pure cotton yarn, organic coconut mattress filler, and baby-safe wood coatings to ensure safety and sustainability of the products.
