SUMMERTIME23

THE TRANQUILITY OF SUN & WATER

A dance of colours, warm sun,
and calming waves - in golden half-light.

This summer drop takes its inspiration in the shade of swaying trees,
in long nights of beautiful sunsets, and in dreamy summer scents.

A flowering of the sun's colours, ocean tints and light crinkled effects.
Soft and refined shapes, with a light skin touch - like an invitation
to ease into the sweetness of the warming sun
and the breezes of the ocean.

It's summertime - a time of simplicity and carefreeness.
A time for dreaming and creating, and for returning
to the essentials in life.

Dance to the calming rhythm of the sun and water.
