

Pamper your precious cat or small dog by offering healthy, filtered drinking water from the Danner Home Collection line of Ceramic Pet Fountains. Each Ceramic Pet Fountain is specifically designed to deliver crystal clear, cascading water which encourages increased pet hydration, helping to maintain your pet's health. The included pump and 3-stage filter system offers a constant recirculation and filtration of water to help eliminate harmful bacterial growth, bad tastes and odors from ordinary tap water, yielding a happier and healthier pet companion. They are also stylish pieces of decor that add ambiance to any room in your home and offers an upgraded alternative to classic water dishes for your pet.
