

**CREATED™**  
HARDWOOD

## From exceptional trees, come exceptional furnishings.

Nestled among the rolling hills of northeastern Ohio, Created™ Hardwood's Midwest manufacturing facility begins each day with a moment of reflection, drawing inspiration for its products from its surroundings. The passing seasons provide a subtle and sometimes harsh reminder of the ephemeral quality of life, and the need to cherish every day and every gift that nature has to offer.

Each piece of wood that's harvested, processed and passed from our hands to yours is a transfixed embodiment of nature in its purest form. Melding traditional craftsmanship with the tenets of modern design, Created™ Hardwood strives to combine superior raw materials with thoughtful purpose, producing furnishings unmatched in quality and beauty, built to last a lifetime.

It's our distinct privilege to procure and transform such magnificent creations, most having spent their time on earth within 50 miles of our shop. Look for the Created™ coin as a symbol of quality, respect, and a commitment to honoring each tree's legacy now, and preserving it for generations to come.

## Purity. Balance. Restraint.

These three words drive the design of all of our products, from the cut of the wood to the finish of the hardware. In short, it's not about us. Our company was founded on showcasing the most beautiful raw materials available with the purest expressions possible. We believe that our products are best served without the distraction of adornments or contrivances, and that just because you can do something, doesn't mean you should. We carry that mantra from the drawing board to our showroom floor with every piece we produce.

## Dining Tables

Our tables form the foundation of our product line, and are equally at home in the dining room, office, living room, and kitchen. The massive solid tops strike an uncommon balance of rawness and refinement, and meld seamlessly with traditional, modern, or transitional decor. Our proprietary bases are designed to complement any style without distracting from the beauty of the tops.

## Created™ Kitchen Collection

The ultimate combination of form and function, our Created™ Kitchen Collection includes everything from built-in Peninsulas to freestanding Islands, Countertops and Floating Shelves.

Prepare your food in style on our Butcher Blocks, available in different sizes and configurations. Treated with food-safe mineral oil, they're built to endure all the cutting, dicing, and prepping you can dish out.

The collection also includes a stunning lineup of accessories including Carving, Cutting, and Cheese boards as well as Countertop Wine Holders, which make ideal gifts for any occasion.

## Created™ Home Office

It's widely believed that an appealing office environment not only makes work more enjoyable, it also increases productivity. We're out to prove it with our full line of Desks, Credenzas, Filing Cabinets, Bar Cabinets and Rolling Carts.

Enjoy spending as much time as necessary in your home office furnished with gorgeous solid wood pieces for every purpose.

## Created™ Bed & Bath

The utility of our slabs isn't limited to flat surfaces, and we offer a wide range of products for the entire home and office, including our latest addition: Bed & Bath. Complete bedroom suites are tied together with the richness of solid walnut. Freestanding bathroom vanities juxtapose nature with austerity. Whether it's a singular piece or a matched ensemble spanning multiple rooms, our solid slab furniture lends a sense of calm and serenity where it's needed most.

## Have a seat. Or six.

Our collection of dining chairs, stools and benches provides the perfect complement to our tables, bars and islands, or as contrast to something completely different.

We believe there can be too much of a good thing, so our seating features understated silhouettes and hardware that avoids overpowering the beauty of the wood.

Available in limitless combinations of species, edges, bases and finishes.

Where our dining chairs take a back seat to our tables (pardon the pun), our lounge chairs, sofas, and ottomans command attention and admiration from every angle. Designed as show-stopping display pieces, they blur the line between furniture and art. Available with or without leather cushions, they're as comfortable as they are stunning.

## A commitment to responsible sourcing

We view each piece of wood that enters our shop as a treasured gift rather than a commodity to be taken for granted. As a company that relies on the health and abundance of trees, we've committed to having a positive impact by using only responsibly-sourced trees in our products. We never harvest trees for our use, but rather "upcycle" trees that have been or will be harvested for commercial or safety reasons, which would otherwise be destroyed or repurposed. None of the species we use is endangered, but each tree is uniquely individual and deserving of our utmost respect.

## Wood Species

Created™ Hardwood can source nearly any wood species on earth, but focuses on wood species native to its home in Northeastern Ohio. Local hardwoods are not only more accessible, but also feature traits that express the core values on which the brand was founded.

Note: Each piece of wood is unique, actual appearances may vary. Species and grades are subject to availability.

## Characteristics

**COMPOSITION** | Created™ products are made exclusively with solid wood. Three types of composition offer flexibility of form and price point and are often determined by availability.

SOLID

BOOK MATCHED

MULTI-PLANK

**SHAPE** | Different applications and styles of decor call for different product forms and designs. Our slabs can be cut to any shape or size within the original dimensions of the slab.

NATURAL

SQUARE OR RECTANGLE

ROUND OR OVAL

**EDGE PROFILE** | The silhouette of a piece often contributes to its overall beauty as much as the grain itself. While the Created™ brand was founded on the organic shape of the Live edge, other edge profiles can be used to establish a particular design style and emphasize features of a piece.

LIVE

*Always one-of-a-kind, always in style, a Live Edge is the purest expression of the tree from which it came and blends seamlessly with any decor.*

SQUARE

*Choose the square edge for a classic look with a clean silhouette. Works well with Gold grade slabs to focus the eye on the grain and character.*

INVERTED

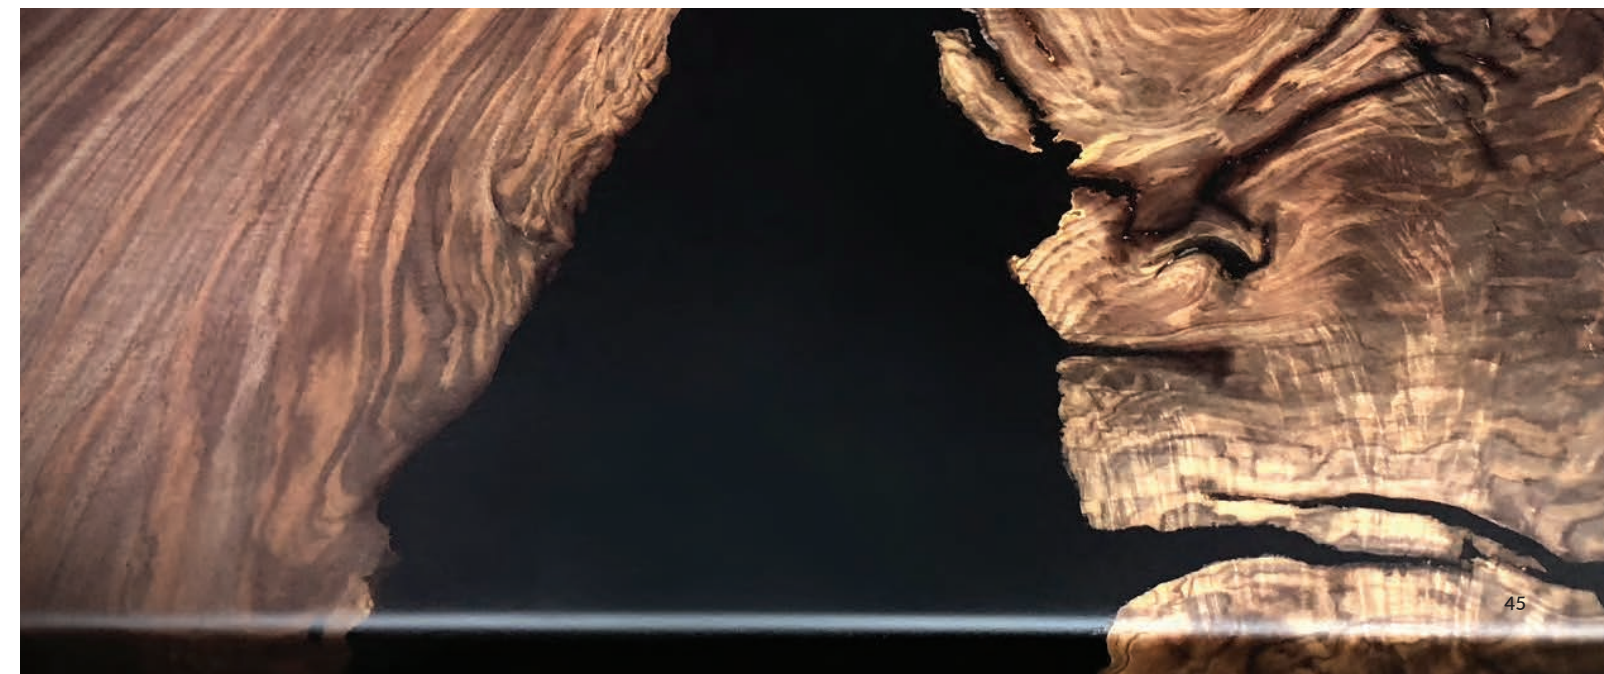

*A Created™ Signature option, our Inverted Edge features four 30° mitered edges juxtaposed in opposite directions to create a dynamic, modern profile.*

## Finish & Fills

Created™ Hardwood prides itself on its best-in-class finish of everything we make from our largest table tops to our smallest bookends. As organic material, a piece of wood is always “alive”, responding to changes in humidity and the overall environment. Accordingly, we go to great lengths to ensure not only a beautiful appearance, but also maximum durability of our products.

We use premium-grade sealers, varnishes and resins to produce the finest satin smooth surfaces (no moisture rings here!) and the most stable internal structures possible. We consider each piece of wood to be “perfectly imperfect” and while we embrace those imperfections, we do our part to make sure they’re as practical as they are beautiful.

## Created™ Gifts & Accessories

In addition to our line of home furnishings, Created™ offers a line of accessories that showcase the same hand-selected solid slabs that are used in the larger furniture. When it comes to wood, we believe there's no such thing as "scrap", and we strive to put each piece that enters our shop to its best use.

Our line of Accessories includes Cutting Boards, Magnetic Knife Boards, Wine Holders, Coat Racks, and more that are not only useful to own, but also make unforgettable gifts.
