So your relationship is strong. But is it flat-pack furniture strong? Unless you're an aerospace engineer, assembling furniture can be slightly sressful. We recommend meditating quietly, pouring yourself a herbal tea(or slightly less herbal wine) and tackling things one step at a time.If you feel a passive aggressive remark coming on, try a compliment instead.E.g. "You're so good looking"

This 5-step assembly should take around 15 minutes with an Allen Key - or 8 minutes with and electric drill. Godspeed.
