We try our best to include all undeliverable postcodes on the above list, however, there are still postcodes that are undeliverable for some products. If the postcode is not on the list, please check if the product can be sent to the suburb with the shipping estimator bar on the product page.

If an extra shipping fee applies it will be added to the order directly if the order can be delivered with an extra shipping fee. Those orders with no shipment service will be cancelled and refunded automatically with email notification.

Please kindly contact our friendly sales team at hello@thedens.com.au for more information if you need the item to be delivered to a remote area and you can not determine if shipping is available to your particular postcode.
