Most of my guy friends ask me first about [hair-loss](#) (aka balding-shriek) and then under-eye bags comes in as second. The truth is that little luggage under your eye is probably a mixture of a fat pad or bulge and some swelling or fluid build up from last night's BBQ. Lancome's little magic wand elixir makes what isn't permanent go bye-bye and reveal a much more awake and taut eye region.

Lancome Genifique Light Eye Pearl

Now back to hair loss or just making sure you keep the hair that's already in place. The celebrity favorite [Viviscal Supplement](#) has added new skus to its incredibly popular line. Now there's a serum and men and women are in tingling scalp heaven over the news. The stimulating Ana:TeI™ complex is drug-free and preps the scalp for fast growing thicker hair when used in combination with the supplements.

Manly Pits? Most guys want or rather need some serious protection. Antiperspirants and deodorants are designed to chemically change the arm pit zone into something more pleasing- however [Jack Black Cool CTRL](#) utilizes odor-blocking technology combined with natural anti-bacterial and anti-fungal ingredients that stops even the strongest odor, leaving you cool and in CTRL. So, no more hiding behind your fantasy football team, because now you can get out there and play like the pros without the stench. Dermatologist tested. Safe for sensitive skin.

Guys have become really fussy about their hairstyle. They've also learned that washing it every day doesn't always lead to a more manageable style. The hair masters at Aveda created a modern styling cream that adds pliable hold and control while maintaining a natural look. Its conditioning formula gives hair natural shine without unwanted weight or stickiness.

Aveda Mens Hair Care

The Shave is a manly experience that we've found may take some prep, care and maintenance into the action. They like their products to get the closest grooming, feel good, and keep razor burn away for good. Entire Kiehls' Ultimate Brushless Shave Cream White Eagle. This formula truly moisturizes your skin as you shave, unlike soap-based shaving creams, which can dry skin out and sometimes lead to razor burn. Contains Menthol and Camphor to give your skin the cooling effect it needs and craves post-shave.
